RESOLUTIONS

LEGISLATIVE RESOLUTION 117. Introduced by Jones, 43; Hartnett, 45.

PURPOSE: The purpose of this study is to examine lowering the population

threshold requirement for the formation or continuing status of villages. The current population requirement for villages is at least one hundred inhabitants to not more than eight hundred inhabitants. As proposed by LB 493 (2001), the population requirement for villages would be changed to at least five inhabitants to not more than eight hundred inhabitants. This study shall examine the merit of lowering the one-hundred-inhabitant threshold and shall make recommendations to address the potential for fraudulent formation of villages due to the lowering of such threshold.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 118. Introduced by Preister, 5; Burling, 33; Cudaback, 36; Smith, 48; Hartnett, 45; Beutler, 28; Schimek, 27; Quandahl, 31; Erdman, 47.

PURPOSE: The purposes of the study are to seek solutions to barriers to the development of wind energy in Nebraska and to identify funding mechanisms to fund renewable energy development in Nebraska. The study will include, but not be limited to:

- (1) Examining Nebraska's potential to become an exporter of wind energy and identifying any policy issues that may need to be addressed;

- (2) Identifying transmission barriers, both intrastate and interstate, and determining solutions to overcome such barriers;

- (3) Identifying the benefits and consequences of exempting private renewable energy generation projects from the condemnation authority of public power districts; and

- (4) Identifying potential funding sources for a renewable energy fund which could be used to advance the development of renewable energy in Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Natural Resources Committee of the Legislature, in conjunction with the State Energy Office, shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. The committee shall conduct public hearings to provide for public comment.

3. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 119. Introduced by Stuhr, 24; Raikes, 25.

PURPOSE: The purpose of this study is to clarify who is eligible to run for positions on the boards of educational service units comprising more than one county. Current statutory language is confusing and needs to be clarified. LB 647 (2001) would have added clarifying language on this issue to section 79-1217. This study shall include, but need not be limited to, consideration of the provisions of current statutes and of LB 647 and any other issues the committee deems relevant.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 120. Introduced by Vrtiska, 1.

PURPOSE: The purpose of the study is to examine the Task Force for Building Renewal created by LB 309 (1977). In particular, the study shall (1) examine the history of the task force and the placement and status of the task force as a division of the Department of Administrative Services under the Governor and (2) review the duties and priorities of the task force.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Building Maintenance Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

RESOLUTIONS

LEGISLATIVE RESOLUTION 122. Introduced by Foley, 29.

PURPOSE: On February 6, 2001, the Governor signed LB 36 into law. The law eliminates the duty of school bus inspections by the Nebraska State Patrol. The statement of intent for this legislation noted that, "The State

Patrol Task Force found that this is a duplication of quarterly inspections by trained mechanics for each school district required by the Nebraska Department of Education".

As a result of a careful investigation of the Nebraska State Patrol school bus inspection reports filed at the State Department of Education, many examples were found of safety violations. Some examples include: Emergency doors that were padlocked or otherwise inoperable; empty fire extinguishers; emergency door handles missing; missing registration and insurance cards; seats not bolted down; brake lights inoperable; exhaust system leaks; stop arms missing or not functioning; first aid kits missing; emergency brakes not holding; tires worn down to tread bars; cracked windows; and others.

All of the above violations were discovered by the Nebraska State Patrol after a local mechanic selected by the school district had already inspected the buses. During April 2001, a survey of school districts with bus services for their students revealed that of the seventy-seven districts who responded, seventy-one districts reported having no required qualifications for the mechanic who inspects their buses. Only six districts had some kind of qualification. Thus, there is no assurance that the mechanic who inspects the school buses will find all of the violations. The mechanics selected by the local school districts are not necessarily well versed in the state requirements for safety of school buses.

The violations found on school bus inspection reports filed by the Nebraska State Patrol are serious threats to the safety of Nebraska students. In order to assure that student safety is maximized, further study is needed on the question of who conducts school bus inspections and what qualifications might need to be required of those who perform the inspections.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Transportation and Telecommunications Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 123. Introduced by Vrtiska, 1.

PURPOSE: The purpose of the study is to examine the prohibition of certain telephone solicitations. In particular, the study shall gather input from the telephone companies as well as members of the Public Service Commission and the Legislature.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Transportation and Telecommunications Committee of the Legislature shall be designated to conduct an interim study to carry out the

purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 124. Introduced by General Affairs Committee: Janssen, 15, Chairperson; Burling, 33; Cunningham, 18; Erdman, 47; Redfield, 12; Schrock, 38.

PURPOSE: To study sales of alcoholic liquor in Whiteclay, Nebraska.

The study shall examine:

1. The total annual sales of alcoholic liquor in Whiteclay;
2. The tracking of inventory at Whiteclay alcoholic liquor retail outlets;
3. Facilities and services available to consumers;
4. The effect of volume sales of alcoholic liquor upon the citizens of Whiteclay and surrounding communities, in particular the effect upon their general health, welfare, and quality of life; and
5. Any other matters appropriate for a complete examination of the issue.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the General Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. The General Affairs Committee of the Legislature shall conduct a hearing in Whiteclay, Nebraska, in order to properly analyze the issues proposed in this study.

10 (2) With respect to the investigatory stop of a motor

LEGISLATIVE RESOLUTION 125. Introduced by Wehrbein, 2.

PURPOSE: To study the provisions of section 81-1385, Reissue Revised Statutes of Nebraska, which is that portion of the State Employees Collective Bargaining Act that specifies consequences in the event of appeal by either the exclusive collective bargaining agent or the employer of a Special Master ruling.

It is the intent of the Legislature to study and determine:

(1) Whether subsections (1) and (2) of section 81-1385 no longer serve as an incentive for an exclusive collective bargaining agent or the employer to reach agreement in collective bargaining contracts; and

(2) Whether subsections (1) and (2) of section 81-1385 contain an unreasonably punitive provision for an exclusive collective bargaining agent or the employer in the event of an appeal by either party of a Special Master ruling.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Appropriations and Business and Labor Committees of the

RESOLUTIONS

LEGISLATIVE RESOLUTION 128. Introduced by Wickersham, 49.

PURPOSE: This study shall examine occupation taxes. Occupation taxes are a large and growing aspect of municipal finance. The study should determine the amount of occupation taxes collected and the role they play in

financing municipal operations. The committee shall determine whether or not occupation taxes are significant enough that state law should restrict their growth as is the case with most other taxes collected by local governments.

The study should also examine whether or not counties should have a similar power to collect occupation taxes on businesses outside a municipality's taxing jurisdiction.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 129. Introduced by Wickersham, 49.

PURPOSE: This study is to examine the electronic payment of taxes as a method of providing greater services to the citizens of Nebraska. The study shall examine progress made to allow greater use of electronic transfers as a method of paying taxes. This study should assume that it is a goal of the state that eventually all taxes be payable electronically, including property taxes. The study should determine the steps that need to be taken and set out a timeline to achieve this goal.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 130. Introduced by Wickersham, 49.

PURPOSE: This study shall examine the contents and layout of property tax statements. The study should examine the information contained on the statements, especially the state aid disclosure, and determine what additional information would be useful to taxpayers. Attention should be paid as to whether and how more and more detailed information could be contained on the statement. In other words, how can the layout of the statement be revised to contain more or better information and how could a new format be made available to counties at minimal cost and disruption.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to

conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 131. Introduced by Schrock, 38.

PURPOSE: This study shall look at how schools with declining enrollments are affected by decreases in state aid.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 132. Introduced by Wehrbein, 2.

PURPOSE: To study the use and construction of equipment storage buildings by the Department of Roads. This study may include, but shall not be limited to:

(1) A determination of the need for equipment storage. The needs analysis will include the identification of equipment that is currently stored outdoors and an estimate of the amount of storage space needed. The needs analysis will also include the identification of any economic, safety, and other advantages of inside storage;

(2) A determination of the minimum design requirements of equipment storage buildings and the estimated cost of buildings built to such minimum design requirements;

(3) A comparison of the identified minimum design requirements to the current design of buildings being constructed by the department; and

(4) An examination of the cost-per-square-foot estimates prepared by the department and included in the budget request for equipment storage buildings.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 133. Introduced by Preister, 5; Suttle, 10; Hartnett, 45; Beutler, 28; Aguilar, 35; Thompson, 14.

PURPOSE: The purposes of the study are to explore policies to reduce air emissions from power plants and to achieve greater energy conservation and efficiency. California and the western states have experienced severe power shortages due in part to electric utility deregulation and the price escalation of natural gas. Nebraska needs to take this opportunity to examine its power generation system and policies in order to achieve greater energy conservation and efficiency.

In this examination it is also prudent to evaluate the public health and environmental impacts created by fossil-fuel power generation and to determine actual costs associated with such generation. Nebraska utilities emit over seventy-eight tons of air pollutants into the air every year, which accounts for over seventy-five percent of Nebraska's total air emissions. Health effects from these emissions include respiratory illnesses, asthma, lead poisoning, and fish advisories. In the United States, air pollution kills over fifty thousand persons a year -- a death toll higher than that of traffic accidents, breast cancer, or AIDS. A recent Center for Disease Control study determined that Nebraska is ranked second in the country in the number of people dying from asthma. Nebraska needs to examine our current policies and determine whether changes should be made in order to better protect the health of its citizens.

The study will include, but not be limited to:

(1) An examination of utilities' air emissions impact on the environment and health of the people, and identification of incentives and policies to reduce utilities' air emissions;

(2) An analysis of externalities associated with generating power from fossil fuels including environmental impacts and health effects, as well as analysis of costs of environmental compliance and pollution control devices;

(3) An analysis of conservation and energy efficiency practices and policies, including the costs and benefits of providing real-time information for residential and small electricity consumers to help consumers better understand and manage their consumption; and

(4) An identification of incentives and potential funding sources for both demand-side and supply-side energy efficiencies and conservation.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Natural Resources Committee of the Legislature, in conjunction with the Health and Human Services Committee of the Legislature and the State Energy Office, shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committees shall conduct public hearings to provide for public comment.

3. That the committees shall upon the conclusion of the study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 134. Introduced by Thompson, 14.

PURPOSE: Research findings continue to identify public health concerns about the effects of environmental tobacco smoke on public health. This study shall examine the effects of environmental tobacco smoke on Nebraska's workforce and the effectiveness of barriers and ventilation systems aimed at decreasing the negative effects of environmental tobacco smoke. It would also review the health impact of smoke-free workplace legislation in other jurisdictions.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 135. Introduced by Thompson, 14.

PURPOSE: As the statutory levy limits for public school districts move from \$1.10 to \$1.00, the current law which combines the general fund, the special building fund, and the hazardous material abatement/handicapped accessibility fund within the tax rate limitation should be reviewed. The issues that should be studied include the effect that maximizing the special building fund has on an equalized school district which is levying near or at the maximum, the effect that the tax rate limitation places on school districts that are growing or have older facilities that require improvement in providing educational services, and how the use of bonds is affected by these limitations.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 136. Introduced by Thompson, 14.

PURPOSE: Current law in Nebraska requires a person who wants to buy a handgun to obtain a certificate which authorizes the holder to acquire any number of handguns during the three-year period of the certificate. In order to receive this certificate, the applicant must apply with local law enforcement that issues or denies the certificate upon determining if the

applicant is prohibited by law from purchasing or possessing a handgun. Once this certificate is obtained, the applicant is no longer subject to any future background checks when purchasing a handgun. The purpose of this study is to examine whether the purchaser of a handgun should be subject to a background check prior to each purchase and, if so, whether the three-year certificate should be eliminated. The study will also examine how the instant criminal history record check system is utilized by handgun retailers in Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 137. Introduced by Price, 26.

PURPOSE:

WHEREAS, lead is an environmental toxin which poses significant health risk to young children, potentially damaging their developing nervous systems and causing learning disabilities, lack of coordination, reduced attention span, erratic behavior, and acute illness such as headache and gastrointestinal distress; and

WHEREAS, the lead poisoning rate in children of various Nebraska communities ranges from five percent to twenty percent; and

WHEREAS, current programs to identify, test, and conduct environmental followup on children who are lead poisoned are sparingly funded almost entirely through federal grants; and

WHEREAS, lead-based paint is the most prevalent source of lead in homes and is potentially present in all dwellings built before 1978; and

WHEREAS, the ideal solution to assure that Nebraska's children are no longer poisoned by this environmental toxin is to completely remove lead-based paint from all homes and apartments; and

WHEREAS, the tenants or homeowners of such dwellings are typically low-income families; and

WHEREAS, unfunded federal mandates on the safe maintenance, renovation, or rehabilitation of such dwellings requires workers who have been trained and certified in remediation of lead-based painted surfaces, which significantly increases the cost of such work; and

WHEREAS, the expense of such work may prevent landlords and homeowners from eliminating the environmental lead hazard, thereby continuing the risk to children's health; and

WHEREAS, the expense of such work, which is now required by new federal regulations of the United States Department of Housing and Urban Development, may limit the ability of property owners to make a sufficient amount of affordable housing available in Nebraska communities; and

WHEREAS, the Legislature should conduct an interim study to evaluate the potential options for establishing funding to: (1) Assist property owners to eliminate lead-based paint in residential dwellings; (2) evaluate the short-term and long-term public health benefits of interim lead paint stabilization versus elimination (full abatement); and (3) conduct comprehensive public health lead-poisoning prevention programs at the local and state levels.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 138. Introduced by Hilgert, 7; Wehrbein, 2.

PURPOSE: The purpose of this study is to examine rates paid to behavioral health providers through publicly-funded programs. The study shall include, but not be limited to, information on how rates are currently determined, issues with the current level of reimbursement and the impact on the quality of care, and availability of services and models that may be available to set rates that address availability, quality, and an appropriate array of services.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 143. Introduced by Cunningham, 18.

PURPOSE: The purpose of this study is to examine the definition of adult family homes. Under current rules and regulations of the Department of Health and Human Services, an adult family home is permitted to provide full-time residence and minimum supervision and guidance to not more than three adults. Currently adult family homes are voluntarily certified by the Department of Health and Human Services but are not licensed. The Health Care Facility Licensure Act requires licensure by the Department of Health and Human Services Regulation and Licensure for facilities that provide certain health care services to four or more persons.

The availability of community-based, cost-effective alternatives to nursing home care and institutionalization is currently inadequate in the State of Nebraska. The development of such alternatives should be encouraged.

This study shall specifically examine whether the definition of adult family home, as found in rules and regulations of the Department of Health and Human Services, should be changed to allow an increase in the number of adults permitted to reside in such homes and whether safety requirements for such homes should be adjusted in light of such change.

RESOLUTIONS

LEGISLATIVE RESOLUTION 144. Introduced by Hilgert, 7; Wehrbein, 2.

PURPOSE: To study the Thomas Fitzgerald Veterans' Home in Omaha. The study shall include, but not be limited to, the following:

- (1) A review of the adequacy of funding for the facility;
- (2) The use of contract labor at the facility and its funding implications; and
- (3) An examination of the terms of the facility lease and future capital construction needs and priorities.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 145. Introduced by Revenue Committee: Wickersham, 49, Chairperson; Coordsen, 32; Hartnett, 45; Janssen, 15; Raikes, 25; Redfield, 12.

PURPOSE: The purpose of this resolution is to examine Nebraska's overall tax structure. The study shall examine the burden borne by Nebraska taxpayers in the aggregate compared to that of taxpayers in other states by various measures, and the burden on individual taxpayers as affected by exemptions from tax, tax credits, and other preferences granted to some taxpayers as compared to others. The study will examine whether tax burdens are similar for similarly situated taxpayers with a focus on tax equity. The study is to examine all of the major tax programs used in Nebraska, the exemptions, credits, and other preferences granted within those tax bases, our relative reliance on each, and the combined burden they place on Nebraska taxpayers in a variety of situations.

The study shall also examine the changes that might result if significant proposals that were offered in the 2001 Legislative session and held by the Revenue Committee were enacted. Included in such proposals would be LB 841, proposed by Senator Brashear, that would dramatically expand the sales tax base, lower income tax rates, and provide a homestead exemption. Another example is LB 528, proposed by Senator Raikes, that would substantially simplify and flatten Nebraska's income tax system. The purpose of this analysis is to determine how such dramatic changes might affect Nebraska taxpayers by income group.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 146. Introduced by Revenue Committee: Wickersham, 49, Chairperson; Coordsen, 32; Hartnett, 45; Janssen, 15; Raikes, 25; Redfield, 12.

PURPOSE: This study is to determine the impact on the assessment of agricultural and horticultural land if the assessment methodology proposed by LB 600 (2001) were implemented. The study will rely on information generated by the Department of Property Assessment and Taxation and the University of Nebraska Institute of Agriculture and Natural Resources and

compiled by the department. The study is to analyze the changes in valuation that could be expected to various subclasses within the class of agricultural and horticultural land as compared to each other and between different areas of the state. The study should also determine the sensitivity of those valuations to changes in the capitalization rate or rates. Finally, the study should examine the extent that local governments would be able to finance current operations under the levy limits should LB 600 be enacted into law and the effect that the assessment method would have on equalization aid under the Tax Equity and Educational Opportunity Support Act.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study.

2. That the Executive Board of the Legislative Council be permitted to allocate resources to the University of Nebraska Institute of Agriculture and Natural Resources to carry out the purposes of this resolution.

3. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 147. Introduced by Revenue Committee: Wickersham, 49, Chairperson; Coordsen, 32; Hartnett, 45; Janssen, 15; Raikes, 25; Redfield, 12.

PURPOSE: The purpose of this study is to monitor the administration and progress of the Uniform Sales and Use Tax Administration Act, commonly known as the Streamlined Sales and Use Tax System. The study is to inform the Legislature of the number of states participating, the level of participation, any material differences in the authorizing legislation, any federal response, and a timeline for full implementation. This study should also begin the process of drafting the legislation that will be necessary to conform Nebraska's sales and use tax statutes to the requirements of the act and the accompanying agreement.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 148. Introduced by Wickersham, 49; Schimek, 27; Smith, 48.

PURPOSE: State and local governmental entities have increased the provision of information and services available through electronic means as more Nebraskans acquire access to the Internet. As information technology continues to advance, further opportunities to transact government business electronically may become available. E-government may provide efficiencies and enhance access to state and local agencies and entities. Planning and coordination, as well as the adoption of appropriate legislation to facilitate access or require development of services and to provide necessary privacy protections, may be desirable. This study shall include, but is not limited to, determining:

(1) Whether there exists unrealized potential to increase the provision of state and local governmental services through electronic means;

(2) Whether appropriate standards are in place to facilitate the efficient provision of e-government;

(3) Whether legislation is necessary or desirable to increase electronic access to government;

(4) Whether current security mechanisms and privacy protections are adequate to protect sensitive information; and

(5) Whether there are any additional strategies that should be pursued to make the best use of the Internet for delivery of governmental services.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Transportation and Telecommunications Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 150. Introduced by Bromm, 23.

PURPOSE: The purpose of this resolution is to study the issues involved in making a prior conviction of either Class W misdemeanor, section 60-6,196 (DUI) or section 60-6,197 (implied consent), an enhancement for the sentencing of a current Class W misdemeanor offense.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Transportation and Telecommunications Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

The weight, height, width, and length limits also shall be reviewed, with consideration of safety, impact on roads, appropriateness of fees, length of permit periods, movement of mobile equipment, and tire size and type. The applicability of a federal moratorium against increasing limits on "extra-long vehicles" and the State of Nebraska's ability to alter local limit statutes will be considered and studied.

RESOLUTIONS

LEGISLATIVE RESOLUTION 156. Introduced by Schimek, 27.

PURPOSE: LB 137, passed by the Legislature in 1999, provided that job application materials for positions with public bodies, other than those for finalists, may be withheld from public access. The reason for this exemption from sections 84-712 to 84-712.09 was to allow public bodies to create a large pool of qualified applicants for positions these bodies were attempting to fill. Since the passage of LB 137, questions have arisen as to the definition of finalist. The purpose of this study is to examine the original intent of LB 137 and to determine whether changes in the statutes are needed to balance the securing of the most qualified applicants for public positions and the public's interest in accessing information of applicants applying for these positions.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 157. Introduced by Coordsen, 32.

This study should determine whether the following information should be provided to a patient prior to care or surgery: (1) Whether the physician has been or is currently involved in litigation and the cause of action; (2) if the physician has been, or is going to be, sanctioned and for what reason; (3) whether there has been or will be a loss of hospital privileges; (4) whether there are any reprimands that could affect the patient's care; and (5) whether the physician has been cited or charged for drug abuse or driving while intoxicated.

This study shall determine whether a patient should be informed in nonemergency situations of any physician that will assist the primary doctor and provide consent prior to surgery in order that the patient have the opportunity to access the same information in respect to the assisting physicians or surgeons.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

LEGISLATIVE RESOLUTION 177. Introduced by Brashear, 4; Dw. Pedersen, 39.

PURPOSE: In recent years, the Legislature has considered the issue of creating a secure youth facility for juvenile treatment and care. LB 472, introduced in 1999, and LB 471, introduced in 2001, would have provided that the management and operation of the secure youth facility in Omaha be transferred from the Department of Correctional Services to the Office of Juvenile Services within the Department of Health and Human Services. LB 599, introduced in 2001, would have created the Hastings Secure Youth Treatment Facility by transferring the Hastings Correctional Center from the Department of Correctional Services to the Office of Juvenile Services. Such legislative efforts were undertaken to ensure that an appropriate juvenile facility exists to lessen overcrowding that exists at the youth rehabilitation and treatment centers and to better place juveniles needing treatment in a secure setting.

The purpose of this interim study is to develop a program statement and transition plan for transferring a correctional facility to the Office of Juvenile Services in order to create a "Level 5" secure youth treatment facility and to develop a potential future sex offender treatment program.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

LEGISLATIVE RESOLUTION 178. Introduced by Government, Military and Veterans Affairs Committee: Schimek, 27, Chairperson; Aguilar, 35; Brown, 6; Burling, 33; Quandahl, 31; Smith, 48; Vrtiska, 1.

PURPOSE: The purpose of this study is to examine the use of employee's social security numbers by state agencies. LB 32, introduced by Senator Redfield in the Ninety-seventh Legislature, First Session (2000), would

require state agencies to treat any employee's social security number as confidential information. This study will investigate how social security numbers are currently being used by state agencies and how these agencies can increase the confidentiality of this information. This study shall work with all parties having an interest in LB 32, including the University of Nebraska and the Department of Administrative Services.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

LEGISLATIVE RESOLUTION 179. Introduced by Government, Military and Veterans Affairs Committee: Schimek, 27, Chairperson; Aguilar, 35; Brown, 6; Burling, 33; Quandahl, 31; Smith, 48; Vrtiska, 1.

PURPOSE: The right to vote is a fundamental aspect of citizenship in the United States. Current statutes and regulations in Nebraska pose considerable hurdles to restoring a felon's right to vote. Felons often face a lengthy and confusing process to have their rights restored. The goal of this study is to examine ways to clarify and improve the process of restoring felons' right to vote, including: (1) Changes to state statutes; (2) improving communication between the felon and the entities involved such as the Department of Correctional Services and the office of Probation Administration; and (3) simplifying the process for restoration of felons' voting rights. The study will also examine whether the current process disproportionately disenfranchises minority populations in Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 180. Introduced by Government, Military and Veterans Affairs Committee: Schimek, 27, Chairperson; Aguilar, 35; Brown, 6; Burling, 33; Quandahl, 31; Smith, 48; Vrtiska, 1.

PURPOSE: The purpose of this study is to examine the use of alternative board members on various boards and commissions, such as planning

commissions, zoning boards, judicial nominating commissions, and mental health boards. The study will investigate how alternate board members are currently being utilized on these boards and commissions and how that system could be improved. Any party interested in this issue shall be part of the study.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

PURPOSE: To help ensure that any future military draft will be as fair and equitable as possible and to protect state residents from the possible severe consequences of noncompliance with the United States Selective Service System, it is important that all eligible persons are given reasonable notice of their responsibility to register with the selective service system. This study will examine the possible implications and benefits of including a consent form on the application or renewal of a driver's license for persons eligible to register with the selective service. The study shall work with any party interested in this issue including the Department of Motor Vehicles, the selective service system in Nebraska, and the Attorney General's office.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 182. Introduced by Brashear, 4.

Such a review shall identify specific issues to consider in detail and make recommendations for appropriate revisions and recodification of the Nebraska Juvenile Code to implement any such revisions or changes.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 183. Introduced by Brashear, 4; Cudaback, 36.

PURPOSE: To conduct a comprehensive study and review of Nebraska's statutes on divorce, alimony, child support, and child custody. The review shall identify specific issues to consider in detail and propose appropriate statutory revisions or changes.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 184. Introduced by Price, 26.

PURPOSE: Prior to 1990, all political subdivisions were subject to the same budgeted reserve limitations by the Nebraska Budget Act, specifically subdivision (1)(b) of section 13-504. That limitation is generally fifty percent.

The 1990 enactment of the Tax Equity and Educational Opportunities Support Act imposed more restrictive reserve limitations on all school districts. Depending on the enrollment in the district, the limit is as little as twenty percent. In addition, the annual growth in budgeted reserves is further limited to two percent of the general fund budget of expenditures.

The intent of the more restrictive school reserve limitation in the act appears to have been to prevent school districts from raising their reserves, thereby reducing the effectiveness of state aid's reduction in the reliance on property taxes. However, the budgeting landscape for school districts and all other political subdivisions which levy and collect property taxes changed dramatically with the 1996 enactment of LB 1114. LB 1114 placed statutory levy limits on all such subdivisions. However, it did not remove the pre-existing budget limitations.

The combination of levy limitations and budget limitations now in place for school districts have dramatically altered the landscape upon which the original reserve limitations were founded. First, the existence of the levy lid

takes away the original fear that school districts would spike their reserve collections from property taxes. Second, reserves play a crucial role in multi-year planning under levy limitations and under spending limitations. Gone are the days when an unanticipated change in circumstance, such as a drop in assessed valuation for which replacement state aid lags one year, could be addressed by adjusting the property tax request. Now, school districts must prepare multi-year plans, adapting to the annual changes in state aid and other resources available to them. The budgeted reserve is a valuable planning tool for those multi-year budget plans.

The purpose of this study is to examine the existing statutes limiting the budgeted reserves of school districts to determine whether these restrictions curtail efficient utilization of funds by school districts. The issues to be examined include, but are not limited to:

(1) Whether the school district reserve limitations curtail the long-term budget planning of school districts;

(2) The extent to which the school district reserve limitations are a detriment to the efficient utilization of funds by school districts; and

(3) The degree to which the original circumstances resulting in the implementation of the reserve limitations in 1990 are still applicable in light of changes in state aid, spending limitations, and levy limitations.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 186. Introduced by Bromm, 23.

PURPOSE: To recodify statutes relating to telecommunications.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Transportation and Telecommunications Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

LEGISLATIVE RESOLUTION 187. Introduced by Bromm, 23.

PURPOSE: The purpose of this study is to determine the powers of the Director of Administrative Services with regard to allowing employees of agencies with substantial relation to state business access to health insurance coverage via the state employees group health insurance program. The study should include an examination of such entities which are already covered by the state program and an examination of LB 826 from the 2001 Legislative Session.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Banking, Commerce and Insurance Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

LEGISLATIVE RESOLUTION 188. Introduced by Appropriations Committee: Wehrbein, 2, Chairperson; Beutler, 28; Cudaback, 36; Engel, 17; Foley, 29; Hilgert, 7; Kruse, 13; Thompson, 14.

PURPOSE: This study will look at family practice residency programs funded by the state. The study information shall include, but not be limited to, the statutory provisions and intent of the programs, rules, regulations, and administrative guidelines used to administer the programs, information on the level of funding provided for residency programs, how the funding is distributed, who receives the benefits, and the areas where residents who benefited from state funding are practicing.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 189. Introduced by Connealy, 16.

PURPOSE: Section 48-118 of the Nebraska statutes addresses the ability of injured workers to seek compensation for their injuries from negligent third parties. The section also addresses the rights of employers to recover from those proceeds amounts paid by employers to employees under the Nebraska Workers' Compensation Act. Over the years, amendments to the section, as well as development of case law, have rendered the section confusing. The purpose of this study is to examine section 48-118, especially with respect to allocation of attorney's fees and expenses, control of the third-party lawsuit, and co-employee liability for intentional acts and to clarify the various party's rights and responsibilities under the act.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Business and Labor Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 190. Introduced by Dw. Pedersen, 39.

PURPOSE: This resolution is to authorize an interim study for the purposes of planning and preparation for the studies of the correctional issues as described in LB 611 (2001). The interim study will be performed by a committee appointed by the Executive Board, and carried out by designated legislative staff and shall be completed by December 31, 2001. The interim study will result in a final report to be presented to the Executive Board prior to the Ninety-seventh Legislature, Second Session.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 191. Introduced by Dw. Pedersen, 39; Schimek, 27.

PURPOSE: To examine issues relating to extraterritorial jurisdiction of municipalities and whether people residing in such area are being

adequately represented by such municipal governing bodies. In particular, many people living within the area of extraterritorial jurisdiction have expressed the concern that they are the victims of taxation without representation as they are taxed for various services but have no opportunity to vote for a city representative. As urban sprawl is a trend throughout the state, this concern will become more widespread and should be studied as a statewide issue.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 192. Introduced by Brashear, 4; Chambers, 11.

PURPOSE: In 1999 and 2000, the Legislature appropriated funding to commission a comprehensive examination of the proportionality and fairness in the application of the death penalty in Nebraska. The completion date of such study is August 1, 2001, at which time the Nebraska Commission on Law Enforcement and Criminal Justice shall issue a final report to the Legislature detailing its findings.

The purpose of this interim study is to consider the results of the death penalty study prior to the commencement of the 2002 legislative session.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 193. Introduced by Dierks, 40.

PURPOSE: Consolidation and vertical integration in the agricultural sector is rapidly transforming the face of agricultural production. Several measures have been recommended or adopted at both the state and federal level in recent years to counteract the negative implications of agricultural consolidation and to protect the economic interests of agricultural producers and rural communities. These have included mandatory price reporting, measures governing marketing and production contract terms, country-of-origin labeling, bans of packer ownership of livestock, and other measures,

some of which have been enacted or are pending before the Legislature. The purpose of this study is to review measures that have been enacted in other states and to seek public input on these and other measures to address growing market power disparity between the production and processing sectors of the agribusiness industry.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 194. Introduced by Dierks, 40.

PURPOSE: LB 588 heard before the Agriculture Committee during the 2001 legislative session of the Legislature would adopt the Rural Initiative Act to further engage the University of Nebraska in efforts to improve the economic and social vitality of rural Nebraska. The purpose of this study is to seek further input on the role of the University of Nebraska in addressing rural issues and the feasibility and desirability of programs and initiatives that meet rural development needs. It is the intent of this study to identify those programs or initiatives that would be of greatest value and how these will complement and strengthen the efforts of other agencies and programs involved in rural development issues. The study shall solicit the input of the Partnership for Rural Development for recommendations to carry out the purposes of LB 588.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 195. Introduced by Dierks, 40.

PURPOSE: LB 803, advanced by the Agriculture Committee during the 2001 legislative session, would provide a mechanism for establishing a producer-funded program of research, promotion, and consumer education to benefit the pork industry upon the termination of the federal pork checkoff. Through a settlement agreement between Secretary of Agriculture Ann Veneman and producer organizations that had brought action in federal court to enjoin the United States Department of Agriculture from publishing a final rule to terminate collection of the federal pork checkoff, it is likely

that the federal pork promotion assessment will continue for the foreseeable future. Under the agreement, after June 2003, the United States Department of Agriculture will conduct a survey of producers to determine whether a referendum should be called on the question of whether to continue the federal program. The purpose of this resolution is to examine the feasibility and desirability of establishing a pork industry promotion program at the state level in the event that assessments under the federal Pork Promotion, Research, and Consumer Information Act of 1985 are terminated at some point in the future.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 196. Introduced by Dierks, 40.

PURPOSE: The purpose of this resolution is to examine provisions of the Domesticated Cervine Animal Act, regulations of the Department of Agriculture implementing the provisions of the act, and other authorities of the Department of Agriculture for preventing the transmission of disease between and among domesticated and wild cervidae herds and between cervidae and other species. The study shall seek to involve sportmen, commercial cervidae producers, the Game and Parks Commission, the Bureau of Animal Industry of the Department of Agriculture, and other interested parties to examine disease issues and to recommend actions and authorities desirable to reduce the potential for the introduction or spread of cervidae diseases.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 197. Introduced by Brashear, 4.

PURPOSE: Nebraska, like all jurisdictions, has rules in our civil procedure statutes for the filings of pleading in civil lawsuits. Pleadings are the formal allegations by the parties to a lawsuit of their respective claims and defenses, with the intended purpose being to provide notice of what is to be expected and proved at trial. In 1867, Nebraska adopted a system of code

pleading, based on the Field Code of Civil Procedure. In recent decades Nebraska has adopted a series of changes to its civil procedure statutes that have amended Nebraska's code pleading system to be more like a notice pleading system, similar in approach to the Federal Rules of Pleading. As such, Nebraska presently uses a hybridization of code and notice pleading.

The Nebraska Supreme Court's Committee on Practice and Procedure has considered many of the issues that would need to be addressed if notice pleading were adopted in Nebraska and has prepared a draft addressing a number of those issues.

The purpose of this interim study is to incorporate the work completed by the Committee on Practice and Procedure and to consider further revision of Nebraska's statutes regarding a standard of notice pleading. Additionally, if such changes are to be undertaken, this study shall determine the appropriate legislature means that should be employed to effect changes to Nebraska's statutes.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 198. Introduced by Brashear, 4.

PURPOSE: In recent years, the Legislature has considered the issue of drivers using cellular telephones while driving. Among other bills relating to this topic, the Legislature has considered legislation that would have criminalized the use of a cellular telephone while driving and legislation that would have established a presumption of negligence in civil cases for the driver who is using a cellular phone at or near the time of an accident. During the public debate on the legislation, a concern was raised that automobile drivers face numerous potential distractions while driving and that cellular phone usage is, at best, merely one form of such distraction.

The purpose of this interim study is to consider the issue of driver safety in the context of the general problem that drivers may face from distractions, such as usage of a cellular phone or similar device, and to develop appropriate legislation to address such issue.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 199. Introduced by Brashear, 4.

PURPOSE: In recent years, the Legislature has considered the issue of automobile drivers' failure to stop at red lights. For instance, LB 534, introduced in 2001, would provide for red light cameras to be used at intersections to enforce traffic signals. The purpose of this interim study is to examine the enforcement of traffic signals and the general issue of whether drivers conform to traffic signal laws. The study shall also consider the issue of drivers failing to yield at yellow lights. The study shall examine the current state of the law and develop appropriate legislative solutions.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 200. Introduced by Vrtiska, 1.

PURPOSE: The purpose of this study is to examine the taxation of agricultural machinery and equipment in the State of Nebraska -- in particular, the history of legislation on agricultural machinery and equipment and the impact on Nebraska businesses who compete with other states that do not impose such taxes.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 201. Introduced by Erdman, 47; Byars, 30.

PURPOSE: The purpose of this study is to determine whether Nebraska should change the age of majority from nineteen to eighteen years of age. Currently all six neighboring states and 44 of the 50 states use age eighteen as their age of majority. The committee should determine what different ages of majority exist in Nebraska statutes currently. The committee should review the financial and social ramifications of such a change with respect to laws administered by the Department of Health and Human Services, Department of Health and Human Services Regulation and Licensure, and Department of Health and Human Services Finance and Support; if such a

change would assist eighteen year olds who live alone to obtain medical and legal services and secure housing; and how homeless teenagers would be affected.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 202. Introduced by Jensen, 20.

PURPOSE: The purpose of this study is to examine health and human services issues, including, but not limited to: The Nebraska Health Care Funding Act; the Nebraska Mental Health Commitment Act, mental health services, the role and mission of the regional centers, and assertive community treatment; implementation of the federal Ticket to Work and Work Incentives Act; early childhood care and education, and child support enforcement; welfare reform and TANF funding; marriage and family, teenage pregnancy, placement and care of state wards, and juvenile justice; developmental disabilities services; licensing of health care professionals and facilities, health insurance, prescription drugs, rural health, minority health, health care quality, health care availability and affordability, and availability of health care providers; public health development, state public health law, implementation of the Public Health Improvement Plan, and tobacco control and cessation; and health and human services funding, health and human services statutes, and the Nebraska Health and Human Services System.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 203. Introduced by Jensen, 20.

PURPOSE: The purpose of this study is to oversee the distribution and use of funding appropriated under the Nebraska Health Care Funding Act in LB 692 (2001).

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 204. Introduced by Jensen, 20.

PURPOSE: The purpose of this study is to examine issues raised by the introduction of LB 721 (2001) relating to the privacy of information contained on various medical registries established and maintained in the State of Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 205. Introduced by Jensen, 20.

PURPOSE: The purpose of this study is to examine the performance of personal care services for disabled persons who are competent to self-direct their care. Specifically, the study will examine the need for appropriate training, insurance, regulation, preemployment screening, and oversight of persons who perform such services.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 206. Introduced by Jensen, 20.

nationwide, estimated to cause between 44,000 and 98,000 deaths per year, and costing between \$17 billion and \$29 billion annually in hospitals alone.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 207. Introduced by Jensen, 20.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

LEGISLATIVE RESOLUTION 216. Introduced by Coordsen, 32.

PURPOSE: According to the Benefit Review Study of the Nebraska Retirement Systems prepared in August 2000 by Buck Consultants, the current state employee retirement plan lacks competitiveness and fails to satisfy the Nebraska Retirement Systems Committee's standards for benefit adequacy. The benefit review study recommended the system be improved by increasing the plan contribution rates, adding a defined benefit element, and adding a Guaranteed Income Option for retiring employees. LB 801 was introduced to provide supplemental retirement benefits to certain state employees and meets the recommendations of the Benefit Review Study of the Nebraska Retirement Systems.

Legislation similar to LB 801 has been introduced since 1995, with no action being taken. This year an actuarial study was conducted which provides information that should be utilized while it is current. In addition, the recent study of the Legislature's Compensation Plan by the National Conference of State Legislatures identified turnover of legislative staff as a critical issue.

This study shall continue the review of the supplemental retirement benefit provided in LB 801 and the proposed amendments. This study shall also examine implementation issues, including the feasibility of setting up the plan within the Legislative Council pursuant to state statute and internal policies.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 217. Introduced by Business and Labor Committee: Connealy, 16, Chairperson; Dierks, 40; Hartnett, 45; Preister, 5; Schimek, 27.

PURPOSE: To study the collective bargaining process for all public employees of the State of Nebraska. The study shall include, but not be limited to, an investigation into the following:

(1) The process used for impasse resolution by the various bargaining groups in the state;

(2) The utilization of the special master by various bargaining groups; and

(3) The cost associated with utilizing a special master and the Commission of Industrial Relations.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Business and Labor Committee and the Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committees shall conduct public hearings.

3. That the committees shall upon the conclusion of their study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 218. Introduced by Business and Labor Committee: Connealy, 16, Chairperson; Dierks, 40; Hartnett, 45; Preister, 5; Schimek, 27.

PURPOSE: To study Nebraska's veterans homes. The study shall include, but not be limited to, the following:

(1) Whether the administrative structure of the veterans homes allows satisfactory delivery of services to residents;

(2) The issues and policies regarding state employee staff, including matters of recruitment, pay, working conditions, and morale;

- (3) The proper level of funding for the veterans homes operations;
- (4) The use of pooled labor in the veterans homes and whether the use of such contracted employees is cost efficient for the state and how it effects direct care;
- (5) The salaries paid to direct care staff, and whether such wages are competitive with wages paid in the private sector in an effort to improve retention rates; and
- (6) The turnover rate of direct care staff and all the reasons surrounding the turnover rate. The study shall include whether the turnover rate has reduced since the July 1 enactment of the wage shift differentials and the elimination of the Tech 1 positions, as well as other administrative efforts.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee comprised of members from the Appropriations Committee, the Business and Labor Committee, the Government, Military and Veterans Affairs Committee, and the Health and Human Services Committee shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 219. Introduced by Preister, 5.

PURPOSE: The purpose of the study is to examine the recycling of hazardous wastes into fertilizers. This practice introduces dozens of toxic metals and chemicals into farms, lawns, and garden soils--including toxic substances such as lead and mercury. Many crops extract these toxic metals from the soil causing these toxins to enter the food supply and put people's health at risk. Current fertilizer labeling laws do not require listing toxic metals that are not essential to plant and crop growth. The study shall include, but not be limited to, an investigation into the following:

- (1) An examination of whether or not fertilizers sold and used in Nebraska contain hazardous wastes;
- (2) An examination of the costs and benefits of banning the use of hazardous waste for manufacturing fertilizers;
- (3) An analysis of whether or not expanded right-to-know provisions should be enacted for all hazardous wastes contained in fertilizer;
- (4) An examination of whether or not hazardous wastes contained in fertilizers should no longer be exempt from treatment, storage, and disposal tracking requirements; and
- (5) A review of federal law and other states' statutes regarding hazardous wastes in fertilizers.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture, Natural Resources, and Health and Human Services Committees of the Legislature shall be designated to conduct an

interim study to carry out the purposes of this resolution.

2. That the committees shall conduct public hearings to provide for public comment.

3. That the committees shall upon the conclusion of their study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 220. Introduced by Nebraska Retirement Systems Committee: Bruning, 3, Chairperson; Bourne, 8; Erdman, 47; Stuhr, 24; Wehrbein, 2; Wickersham, 49.

PURPOSE: The purpose of this resolution is to study the state and county retirement plans. It is the intent of the Nebraska Retirement Systems Committee of the Legislature to analyze the provisions of Legislative Bills 687, 379, and 801 (2001) as they pertain to a change in the current benefits received by state employees. More specifically, the committee shall work with actuaries and the appropriate agencies to determine whether a defined benefit element can be introduced into the state plan and shall determine the fiscal impact of such change in the benefit. The study shall include an analysis of the alternatives available to the committee for addressing the inequities in the retirement benefit that plan members will receive due to their inability to participate in the retirement systems early in their careers with the state. The study shall further determine if there is a fiscally sound means to provide a supplemental insurance benefit to retired plan members that meets their needs, including prescription drug coverage, during their years of retirement prior to qualifying for medicare coverage.

Because the state and county retirement plans are both defined contribution plans and offer similar benefits to the plan members, and based upon the General Principles of Sound Retirement Planning, the study shall determine the feasibility of providing enhanced benefits not only to state employees but to county employees as well.

Should the study reveal that it is possible to do so, the appropriate amendments shall be prepared for introduction during the subsequent legislative session.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall consist of representatives from the Legislative Fiscal Office and the Nebraska Public Employees Retirement Systems and the actuary and members of the Nebraska Retirement Systems Committee of the Legislature.

3. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 221. Introduced by Bruning, 3.

PURPOSE: The purpose of this resolution is to review the provisions of LB 686 (2001). This legislation proposed that several changes be made to the actuarial funding methods used by the Public Employees Retirement Board in the valuation of the School Retirement System of the State of Nebraska, the Nebraska State Patrol Retirement System, and the Nebraska Judges Retirement System, and that the Nebraska Public Employees Retirement Systems merge several separate funds and accounts in the School Retirement System. In general, it is the purpose of this interim study to determine whether such changes are feasible. More specifically, the study shall include a review as to whether or not various accounts in the school plan may be collapsed into one fund, including the accounts that are used to hold employer contributions, employee contributions, state contributions, and the account from which member retirement benefits are paid, and an analysis regarding a change in the actuarial valuation method in the three retirement plans, with future valuations being made using the "Entry Age Actuarial Cost Method".

Should the study reveal that it is possible to make the recommended changes, the appropriate amendments will be prepared for introduction during the subsequent legislative session.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall consist of representatives from the Legislative Fiscal Office, the Nebraska Public Employees Retirement Systems, and the members of the Nebraska Retirement Systems Committee and the committee's actuary.

3. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 222. Introduced by Bruning, 3.

PURPOSE: The purpose of this resolution is to review the provisions of LB 407 (2001). LB 407 proposes to make several administrative changes to the Retirement System for Nebraska Counties, the School Retirement System of the State of Nebraska, and the State Employees Retirement System of the State of Nebraska, administered by the Public Employees Retirement Board. More specifically, the following proposals will be examined:

(1) Whether the membership provisions in the state, county, and school plans should be modified to include both active and inactive members;

(2) Whether the standards for beginning and continuing participation in the state and county plans should be added, including clarifications on beginning contributions and continuing contributions without a break for purposes of termination;

(3) A review of the process of determining who should be contributing each year to the school plan and modifying it so that it is clearer who should be making contributions to the retirement plan each year;

(4) Whether the granting of service credit in the school plan should be modified from an annual to a monthly basis, even though service is still recorded on an annual basis in the school plan; and

(5) Whether the status of substitute school employees should be clarified in order to distinguish them from permanent employees who fill in for other absent regular school employees.

Should the study reveal that it is possible to make the recommended changes, the appropriate amendments will be prepared for introduction during the subsequent legislative session.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall consist of representatives from the Legislative Fiscal Office, the Nebraska Public Employees Retirement Systems, and the members of the Nebraska Retirement Systems Committee and the committee's actuary.

3. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 223. Introduced by Bourne, 8.

PURPOSE: As the State of Nebraska has a compelling interest in promoting public safety, this study shall examine the quality of life for railroad employees and how current working conditions and environment affect those employees. Although the nation's railroad company employees are covered by rules and regulations of the Federal Railroad Administration (FRA), which establishes an hourly maximum work period, it fails to guarantee a cumulative weekly maximum that governs employees' working hours.

The FRA has sought authority in Congress to issue regulations specifically relating to fatigue under the hours of service; however, Congress has not deemed it appropriate to do so, thereby giving the states authority to promulgate and adopt any rule, regulation, or order that is not covered by federal law, rule, or regulation.

The interim study shall include:

(1) A review of current state and federal regulations and statutes to identify any barriers and recommend changes to provide, facilitate, and equalize railroad employee opportunities across the State of Nebraska;

An examination of the following issues, including:

(a) The implications of railroad companies requiring employees who operate a train or locomotive to be on duty or available for duty unless at least 72 consecutive hours have passed or to be on duty or available for duty

for any portion of each of the previous seven consecutive days;

(b) Mandatory versus voluntary staffing options;

(c) Any issue relating to employee safety and the provisions of law or company policies under which railroad employees operate; and

(d) Any additional issues deemed pertinent to the complete review and analysis of railroad safety;

(3) Public hearings in Omaha, Lincoln, North Platte, and Alliance to provide for public comment and discussion, while allowing interested parties to participate in the legislative process; and

(4) Upon conclusion of this study and following all public hearings, a written report issued by the committee to the members of the Legislature by October 1, 2001. The report shall contain all findings, including all comments, suggestions, and recommendations submitted at the public hearings across the state. The report shall also include draft language deemed appropriate for pending legislation in the 2002 Legislative Session in order to provide all interested parties sufficient time to review and analyze the forthcoming proposal.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Transportation and Telecommunications Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, as set forth in this resolution.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 224. Introduced by Bromm, 23.

PURPOSE: Currently the Game and Parks Commission has seven members. The purpose of this study is to examine the possibility of increasing the Game and Parks Commission to eight members.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 225. Introduced by Hartnett, 45.

PURPOSE: A continuing matter of statewide controversy and debate is the lack of representation on municipal decisionmaking bodies by the citizens who reside in areas subject to municipal control and regulation which are

located outside of the boundaries of the municipalities. Under Nebraska law, cities and villages exercise jurisdiction for a number of purposes over areas outside of their boundaries. In addition to planning and zoning regulations, subdivision regulations, and building codes, these individuals are also subject to some police power regulations, including nuisance laws. The citizens who live in that area often pay higher fees or taxes as the result of the municipal action on the construction, improvement, or expansion of some utility facilities, but they lack any representation on the governing body of the municipality or any real influence over the course of debate or the final decision on these matters of vital importance to them.

Municipal decisions involving expansions of facilities that provide water, sewer, gas, or solid waste disposal services can have a significant influence on the cost and quality of life of the residents both inside and outside city limits, but the nonresidents have little or no voice in the process and often find themselves paying higher fees for the same service than do residents.

The purpose of this study will be to investigate the full range of powers granted to municipalities (both cities and villages) which involve jurisdiction over residents in areas outside of municipal boundaries, determine how widespread is the exercise of these powers and the extent of their reach, and determine if these powers are necessary or appropriate and how best to provide for more involvement in the exercise of these powers by the people residing in these areas.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 226. Introduced by Hartnett, 45.

PURPOSE: In past years, the Urban Affairs Committee has reviewed several pieces of legislation which have sought to use neighborhood or homeowner associations as basic mechanisms for providing citizen input to governing bodies of political subdivisions, for funneling basic information back to their members, as potential recipients of governmental assistance, and as organizing bodies for local improvement efforts.

In the 2001 legislative session, the committee considered LB 323 and LB 742, both of which sought to provide express legal standing for neighborhood associations to engage in community improvement activities funded through the receipt of state grants or through the collection of local fees or taxes.

The purpose of this study will be to investigate neighborhood associations and homeowner associations, to determine how widespread their usage is, what areas of the state they exist in, what forms they generally take, how

they are constituted, what missions and roles they generally serve for their members and communities, and what function they could serve in mediating between citizens and their governmental bodies.

Additionally, the committee would continue to study the issues raised by LB 323 and LB 742 and would endeavor to determine if either or both could be implemented, with appropriate amendments, to accomplish their stated goals in a manner consistent with good public policy.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 227. Introduced by Hartnett, 45.

PURPOSE: State law gives authority to cities and villages to adopt building codes, plumbing codes, electrical codes, fire prevention codes, and other codes relating to the building or construction of structures. Under state law, cities and villages that adopt building codes are required to adopt the Uniform Building Code although they can make modifications to accommodate local conditions. The three model building code organizations, including the organization that developed the Uniform Building Code, have engaged in a process to unify, coordinate, and integrate the various building codes and have completed the 2000 International Codes to replace the existing building codes. LB 811 was introduced by the Urban Affairs Committee in the 2000 legislative session to amend the state building code to reflect these developments. Resulting comment and testimony from local building officials and other interested parties have revealed the need for further review of the proposed changes and investigation of the potential consequences of adoption of some of the specialized codes which are a part of the family of codes involved. This study would address these issues and determine whether and in what fashion the state building code should be amended, whether cities and villages should adopt some or all of the 2000 International Codes as their building codes, what other options are available to cities and villages, and what state laws need to be amended to accommodate any changes.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 228. Introduced by Hartnett, 45.

PURPOSE: Over the course of the past several legislative sessions, the Urban Affairs Committee has been called upon to review several legislative proposals dealing broadly with the structure of local municipal government: The roles of the mayor and city council, the duties and functions of the various municipal officers, the powers granted to the city administrator, the distinctions between classes of municipalities and the powers granted to them, and the desirability of crafting a meaningful constitutional amendment to define the powers of a municipality in adopting or amending a home rule charter (as proposed in LR 20CA, heard by the committee in the 2001 legislative session).

While this list is not comprehensive, it summarizes some of the key issues in local municipal government operation, issues which have not been addressed in any structured, cohesive, or comprehensive manner for several decades.

The purpose of this study will be to review the existing statutes governing the structure and operations of the various classes of municipalities, as opposed to the forms of power or authority granted to them, to identify key issues and problems and determine (1) if significant structural revisions are appropriate and (2) if appropriate, what form such revisions should take.

The study may involve the survey of municipal officials on the subjects of the study or the creation of one or more representative working groups of such officials to advance the purposes of this study.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 229. Introduced by Hartnett, 45.

PURPOSE: This study will provide the opportunity for the Urban Affairs Committee to investigate and review matters and issues arising during the interim which and within its jurisdiction and which may be the subject of bills to be introduced in the 2002 legislative session. This would provide the opportunity for a careful review of proposed legislation and the drafting of such legislation before time constraints and the pace of legislative activity makes studied review more problematic. This process has also served to facilitate review of bills during the session and has helped the committee avoid the need for committee amendments which slow down the consideration of bills by the full legislature.

The study will involve:

(1) A review of legislation considered by the Urban Affairs Committee during the 2001 legislative session which was either indefinitely postponed or held by the committee to determine what other further action by the committee might be warranted with regard to the particular subjects of the individual bills;

(2) A review of problems, concerns, or legislation proposed for introduction by senators or other parties for study, technical discussion, or conceptual refinement before the start of the 2002 legislative session; and

(3) The conducting of at least one public hearing to provide an opportunity for public comment and discussion with members of the committee and the public on issues involving matters within the committee's jurisdiction.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 230. Introduced by Hartnett, 45.

PURPOSE: During the 1999 and 2001 legislative sessions, the Urban Affairs Committee considered the Limited Purpose Sanitary and Improvement District Act, a bill to authorize the creation of special purpose sanitary and improvement districts that would continue to exist within the boundaries of an annexing municipality following annexation for the purpose of maintaining nondedicated streets and roadways that were not constructed in accordance with municipal standards and other "green areas" and "outlots" that the municipality does not intend to maintain.

The legislation dealt broadly with the issue of municipal annexation and the financial responsibilities that a municipality must assume for development that occurred prior to that date. The legislation also raised the larger policy question of the appropriate mechanism for financing that development at the time of development in the light of the future assumption of financial responsibility for that development following annexation.

The purpose of this study will be to focus more closely upon the policy issues and practical problems raised by the Limited Purpose Sanitary and Improvement District Act, identify the amendments necessary to properly enact the legislation, and investigate other possible mechanisms for financing new development beyond municipal boundaries. Among the mechanisms to be investigated will be the use of impact fees and other similar strategies that the committee may find from reviewing such activities in other states. The study shall also review current annexation statutes to determine if changes should be made in the light of the issues raised by this

study.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 231. Introduced by Hartnett, 45.

PURPOSE: Nebraska currently is one of only three states in the nation that offers no tax incentive to promote the preservation of historic properties, although historic preservation is recognized as an important component in housing and neighborhood redevelopment, commercial and "main street" revitalization, and tourism enhancement in our state.

To remedy that situation, LR 14CA was introduced in the 2001 Legislative Session to provide the constitutional authorization for the Legislature to craft a statutory program to provide an exemption from property taxes for the portion of the value of a qualifying property which is attributable to improvements designed primarily to renovate, rehabilitate, or preserve the property. A qualifying property would have to be one of historical significance.

Lingering questions about the cost, efficacy, and potential parameters of such a program require additional study before the Revenue Committee takes final action on such an amendment.

This study would compile additional information on similar programs and strategies adopted in other states for providing economic and tax incentives, review the experience of those states in terms of program cost and effectiveness, and craft potential enabling legislation for such a program in Nebraska if the proposed constitutional amendment proposal was adopted. Efforts will also be undertaken to determine what sorts of property should be included in such program, the extent to which historical districts should qualify, and the interest of property owners and local communities in supporting and participating in such a program.

The study will be conducted in cooperation with the Nebraska State Historical Society.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 232. Introduced by Hartnett, 45.

PURPOSE: To determine which cities and villages in Nebraska do not currently have access to natural gas service, to determine why such service is not being provided, to determine what barriers exist to providing such service, and to analyze the existing situation and determine if there is an appropriate role for the state in removing existing barriers to such service or in helping such municipalities to obtain natural gas service and what state resources may be available to assist in this process.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 233. Introduced by Hartnett, 45.

PURPOSE: The purpose of this study will be to assess the impact of the changes made to the Nebraska State Patrol Retirement System during the past two legislative sessions with regard to COLA adjustments and to provide an opportunity to inquire into the current status of the benefits to be provided to long-term retirees to determine if additional adjustments should be made. The study will seek to receive additional information from retirees and to determine the most appropriate legislative action for the Legislature in the 2002 legislative session to insure adequate retirement benefits for such retirees.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Nebraska Retirement Systems Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 234. Introduced by Hartnett, 45.

PURPOSE: Since 1980, with the adoption of the Nebraska Visitors Development Act, counties in Nebraska have been authorized to collect a lodging tax of two percent on hotel and motel occupancy charges to create funding for promotional activities to encourage tourism in the area. Since

1989, Douglas County has been authorized to collect up to an additional two percent and can use the funds collected to improve visitor attractions and facilities in the county.

Over the course of the past three legislative sessions, several bills have been introduced for the purpose of extending the authority now granted only to Douglas County to use some or all of the locally collected lodging tax revenue for capital improvements on visitors attractions and facilities in other counties. With regard to each proposal, concerns were raised about the potential detrimental impact of such activities in different parts of the state.

The discussion surrounding LB 732 in the 2001 legislative session has revealed new interest in providing additional revenue for local tourism activities, the need to provide funding for facility improvements, and the importance of maintaining a secure, dedicated revenue stream for promotional activities.

This study would investigate the current status of the local lodging tax, the amount of revenue it generates, and the manner in which that revenue is used. It would endeavor to determine the appropriate statutory rationale for permitting these funds to be devoted to capital improvement purposes and would seek to establish if, in the interests of good public policy and in accomplishing the stated goals of the act, additional changes should be made. Additionally, the study would endeavor to determine what additional sources of funding would be appropriate for local tourism activities and what other states in similar circumstances are doing to meet their own local needs.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 235. Introduced by Landis, 46.

PURPOSE: This study shall examine those statutory mechanisms that exist or that may be needed to allow neighborhood property owners to make the same kind of self-directed investments in their properties that are already accorded to business property owners and property owners organized in homeowners associations. This study shall include, but is not limited to, a review of the Business Improvement District Act.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report

of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 236. Introduced by Landis, 46.

PURPOSE: This study is to examine the applicability of "need and necessity" certification throughout the transportation entities regulated by the Public Service Commission.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Transportation and Telecommunications Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 237. Introduced by Revenue Committee: Wickersham, 49, Chairperson; Coordsen, 32; Dierks, 40; Hartnett, 45; Janssen, 15; Raikes, 25; Redfield, 12.

PURPOSE: This study is to examine the implementation of LB 271 that was enacted in 1999 and became fully operable in 2001. That bill implemented a constitutional amendment approved by the people calling for the taxation of public property that is not used for a public purpose. The study is to examine rules and regulations of the Department of Property Assessment and Taxation and how the different counties have dealt with the issue both procedurally and substantively. Finally, the study is to determine the need for more uniform treatment of publicly owned property between counties, if any.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

May 14, 2001

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Mr. President, Mr. Speaker, and Members of the Legislature:

With this letter, I am returning LB 543 with my signature and with line-item reductions. The General Fund amounts vetoed in LB 543 total 6.1 million dollars for fiscal year 2001-02 and 6.7 million dollars for fiscal year 2002-03. In addition, I have reduced the fiscal year 2002-03 transfer from the Securities Act Cash Fund to the General Fund provided for in LB 543, Section 268, by 14.0 million dollars. A list of the individual vetoes is included as an attachment to this letter.

I again commend the Appropriations Committee and the entire Legislature for the hard work and serious consideration that has been given to the

budget bills. You have met obligations created by previous Legislatures and addressed the highest priorities of Nebraska. We are in agreement on the vast majority of budget decisions.

The slowing growth of the national and Nebraska economy requires us to be especially diligent and cautious regarding the State budget. The recent downward revisions in the forecasts of net general fund receipts resulted in your recommendation to eliminate my effort to provide additional property tax relief through the community college aid formula and resulted in your recommendation for additional borrowing from the State cash reserve fund to finance the next biennial budget. Our response must include additional spending restraint and also reduce our reliance on borrowed fund to meet continuing obligations.

I have reduced \$80,000 General Funds in each year of the biennium from the Supreme Court in order to reflect your decision to finance county court audits in the Auditor of Public Accounts (State Auditor) budget. I have also reduced by one-half the amounts above my recommendations added to the Supreme Court budget for special salary adjustments for court reporters, probation staff, and additional probation employees. The remaining amounts are greater than provided to other State agencies. A priority allocation of the remaining amounts that does not create additional obligations in the future can be determined by the Court.

The General Fund appropriation to the Department of Education's Administrative and Support program had been increased to provide funding for a variety of educational leadership, policy setting, technical assistance, and administrative activities. I am reducing the amounts for several items added above my recommendations by one-half and encourage the Commissioner of Education and the State Board of Education to direct the remaining amounts in a manner that satisfies the needs or enhances the performance of our current education programs. I have vetoed specific earmarking amounts related to these items to allow this discretion for the Commissioner of Education. I have not reduced the additional appropriations of 2.7 million dollars for each year of the biennium that we have included for the Attracting Excellence to Teaching program.

I have vetoed appropriations to the Department of Health and Human Services that would initiate new programs or expand programs in fiscal year 2001-02. This includes \$100,000 in both fiscal years of the biennium for LB 288 which remains in the Appropriations Committee. I have vetoed the administrative funding added for fiscal years 2001-02 and 2002-03 for managing a proposed Medicaid waiver to provide additional coverage for substance abuse services as envisioned in LB 344 which remains in the Appropriations Committee. I have vetoed the fiscal year 2002-03 direct services funding for the envisioned Medicaid waiver but have not reduced the \$445,187 General Funds or \$667,187 Federal Funds added for fiscal year 2002-03. The administrative funds are not needed to enhance our existing Medicaid program. The necessary analysis, preparation, and federal

approval of a Medicaid waiver for substance abuse services cannot be properly completed for implementation beginning with fiscal year 2001-02. We will work closely with the Appropriations Committee and Health and Human Services Committee prior to a final determination to submit this Medicaid waiver for federal approval and implementation in fiscal year 2002-03.

My recommendations to the Legislature for both the 1999-2001 and 2001-2003 budget biennium's have included additional funding for older Nebraskans. My recommendations this biennium included an increase of \$500,000 General Funds for fiscal year 2001-02 and \$750,000 for fiscal year 2002-03 for service coordination, in-home, emergency response, and family caregiver assistance. I have reduced the additional \$244,153 General Funds each year that has been included above my recommendations. I have not reduced the \$732,458 in additional federal expenditure authority included each year to allow Nebraska to obtain federal government funding for family caregiver assistance.

LB 543 includes an additional \$400,000 General Funds each year, a 67 percent increase, for mass transit aid above the amount requested by the Department of Roads and included in my recommendations. My veto reduces this increase by \$200,000 General Funds each year. Also, included in LB 543 is an additional 3.5 million dollars General Funds each year, a 161 percent increase, for the Resources Development Fund. I have reduced this increase by \$1,750,000 General Funds each year of the biennium. The remaining amount will be available to assist in the financing of additional water conservation and development projects.

My line-item reduction to the Game and Parks Commission and the Library Commission is one-half of the amount of General Funds added above my original budget recommendations. My vetoes of General Fund appropriations for the Equal Opportunity Commission, Arts Council, and Foster Care Review Board return those agencies to the amounts included in my original budget recommendations. Additional cash and federal fund expenditure authority added for the Game and Parks Commission, Equal Opportunity Commission, and Foster Care Review Board are not reduced. All of these agencies are adequately financed for the 2001-03 biennium.

I have vetoed \$60,000 General Funds in the Commission on Law Enforcement and Criminal Justice designated for a Substance Abuse Task Force provided for in LB 228 which remains in the Appropriations Committee.

For the University of Nebraska I have allowed for additional General Fund appropriations above my original recommendation by \$662,793 in fiscal year 2001-02 and \$1,926,163 in fiscal year 2002-03 to provide for increased employee corresponding benefits and rural health residencies. My line-item reductions have reduced the General Fund appropriations by \$228,000 in fiscal year 2001-02 and \$1,056,000 in fiscal year 2002-03. The University

increases 6.4 percent or 24.9 million General Fund dollars in fiscal year 2001-02 and increases 6.7 percent or 27.8 million General Fund dollars in fiscal year 2002-03 after these reductions.

My veto reductions at the Nebraska State Colleges allow for General Fund increases of 9.2 percent in fiscal year 2001-02 and 9.1 percent in fiscal year 2002-03. This represents an increase of \$621,876 in fiscal year 2001-02 and \$1,124,707 in fiscal year 2002-03 above my original recommendations. This additional funding is primarily related to additional salary costs from collective bargaining, employee benefit costs, and instructional equipment replacement. The line-item reductions amount to \$621,000 General Funds in fiscal year 2001-02 and \$1,124,000 in fiscal year 2002-03.

The line-item reductions to the student financial aid programs administered by the Coordinating Commission for Postsecondary Education allow for a combined total increase of \$1,275,000 General Funds for fiscal year 2001-02 and a total of \$1,432,500 General Funds in fiscal year 2002-03. Student financial aid programs administered by the Commission will increase by 25.2 percent over the biennium. My reductions are \$975,000 General Funds in fiscal year 2001-02 and \$817,500 General Funds in fiscal year 2002-03.

The additional spending restraint represented by my line-item reductions in LB 543 is needed as we work to fashion a final budget for the next biennium. In addition, we must be prepared to reduce our reliance on borrowed funds to meet our continuing obligations. Therefore, I have reduced the fiscal year 2002-03 15.5 million dollar transfer from the Securities Act Cash Fund to the General Fund by 14 million dollars.

I appreciate your hard work. I urge you to sustain these reductions in LB 543.

Sincerely,
(Signed) Mike Johanns

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Mr. President, Mr. Speaker, and Members of the Legislature:

I am returning LB 542 with my signature and with certain line-item reductions.

At this time it does not appear financially or programmatically prudent to attempt to move the archival/storage space of the Nebraska State Historical Society from its "R" Street Headquarters Building. The only additional study needed on the Headquarters building is one that defines and identifies the costs of only the improvements necessary to address fire, life safety, codes, and ADA accessibility issues, as well as modernization of electrical, mechanical, and ventilation systems. I am therefore leaving in \$50,000 of the \$200,000 State Building Funds appropriated for fiscal year 2001-02 to revise the current program statement to include such an option. Improvements identified in this option that are beyond those mentioned above, shall be proposed from other than State Funds. I am therefore eliminating all the remaining funding in fiscal year 2001-02, along with the \$500,000 State Building Funds appropriated for fiscal year 2002-03.

The appropriation for the Five Units of Level 4 Housing at the Youth Rehabilitation and Treatment Center in Kearney states that "...all statutory requirements of the state building division of the Department of Administrative Services be met for this project before work begins. " I have therefore left \$50,000 State Building Funds in fiscal year 2001-02 to allow the required program statement to be completed. The remaining \$2,050,000 State Building Funds has been line-item reduced in the same fiscal year. The \$2,100,000 State Building Fund appropriation for fiscal year 2002-03 remains unchanged.

The State Building Funds appropriated for the Engineering Building Renovation for the College of Public Affairs and Community Services at the University of Nebraska at Omaha have been stricken in their entirety. This includes State Building Funds of \$500,000 in fiscal year 2001-02, \$2,500,000 in fiscal year 2002-03 and \$9,250,000 in the future biennium. This funding simply cannot be accommodated within the constraints of the next budget biennium. It also creates an unacceptably large future commitment.

I urge you to sustain my veto reductions.

Sincerely,
(Signed) Mike Johanns
Governor

RESOLUTIONS

LEGISLATIVE RESOLUTION 238. Introduced by Raikes, 25.

PURPOSE: This study shall examine the implementation of new federal guidelines for the funding of after-school programs. The study shall include review of (1) the effectiveness of after-school programs in reducing crime, teenage pregnancy, and drop-out rates, (2) Nebraska's current four 21st Century Learning Centers providing after-school programs to students in Nebraska, and (3) increased federal funding for after-school programs to promote state program development.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 239. Introduced by Jones, 43; Erdman, 47.

PURPOSE: A recent study by the Bureau of Economic Analysis created a listing of two hundred fifty counties which had the lowest per capita income nationally. Ten Nebraska counties appear on this listing, including seven in the lowest twenty-five counties. These Nebraska counties are all small, most having less than one thousand inhabitants. These counties want to reverse the trend exemplified by the study and help residents improve their financial standing, but have found it difficult to determine what state assistance might be available. The purpose of this study is to review what can be done by the state to help small Nebraska counties dealing with very low per capita incomes.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Government, Military and Veterans Affairs Committee and Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committees shall upon the conclusion of their study make a report of the findings, together with any recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 240. Introduced by Burling, 33.

PURPOSE: The purpose of this study is to determine if reform to Nebraska statutes regarding the availability of "no-fault divorce" would be beneficial in altering the deleterious effects of divorce in Nebraska. Many studies have linked no-fault divorce with the steep rise in the rate of divorce over the last thirty years. Currently, statistics reflect a correlation between higher divorce rates and the increase of poverty, the number of state wards, mental illness, and suicide, both on the state level and nationwide. The monetary ripple effects of this rise are felt not only by families directly affected by divorce, but are also absorbed by the Health and Human Services System, the state corrections system, and ultimately the taxpayers of the State of Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 241. Introduced by Connealy, 16.

PURPOSE: To study the film industry in Nebraska, to look at incentives other states are offering filmmakers, and to look at ways that Nebraska can become more "film friendly". The primary focus of the study will be to find ways to increase economic development in this state by attracting the film industry.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 242. Introduced by Connealy, 16.

PURPOSE: To study incentives for ethanol use given by other states, specifically in Iowa and Minnesota. The purpose is to review how other states have increased the use of ethanol-blended fuel and used incentives for retailers to sell more ethanol.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 243. Introduced by Bromm, 23; Chambers, 11.

PURPOSE: During the discussion of LB 659, 2001, the DNA Testing Act, the issue arose regarding the three-year limitation for filing a motion for a new trial based on a claim of innocence involving evidence other than DNA. The purpose of this study is to examine the issue in detail.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

RESOLUTIONS

LEGISLATIVE RESOLUTION 244. Introduced by Hartnett, 45.

PURPOSE: As the Urban Affairs Committee has reviewed and approved various statutory changes involving the several classes of municipalities, it has become increasingly difficult to gather all the various references to the same subject involving the different cities and villages to insure that the changes are made consistently and that inconsistent treatment is avoided.

The purpose of this study will be to review the various statutes dealing

with cities and villages of all classes and determine if major or minor changes in codification are possible or desirable to bring about more brevity and clarity and to facilitate the search for relevant statutes on subjects related to municipal government.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 245. Introduced by Hartnett, 45.

PURPOSE: Over the course of the past three legislative sessions, several bills have been introduced for the purpose of reducing or eliminating the county inheritance tax and providing different mechanisms for minimizing the financial impact of the lost tax revenue on the counties. Efforts to advance the proposals have suffered from a lack of data on the full impact of the lost revenue on the counties as well as on the appropriate role of the state in making up for the loss.

This study would research the potential revenue loss (by quantifying the amount of the inheritance tax receipts over a reasonable period of time) and develop one or more proposals for eliminating or minimizing the loss.

In addition, based on the identified revenue loss and proposed federal law changes, the committee would identify the most efficacious approach to reducing or eliminating the inheritance tax.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 246. Introduced by Preister, 5.

PURPOSE: The purpose of this study is to conduct a review of the environmental audit statutes which were enacted four years ago. The review shall include, but not be limited to, an investigation of the following:

- (1) A review of the current federal Environmental Protection Agency environmental audit policy as well as other states' environmental audit policies;

- (2) An analysis of how the environmental audit statutes have been used in

Nebraska and whether the uses are consistent with the original intent of the act;

(3) A review of state agencies' authority under the act and whether this authority should be modified or expanded;

(4) An examination of whether the environmental audit statutes have created any incompatibility with federal programs, and if so, what changes need to be made to make state statutes compatible with federal programs;

(5) An analysis of whether the public's health, safety, and access to information are adequately protected; and

(6) A review of any impacts to the environment as a result of application of the environmental audit statutes.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee conduct public hearings to provide for public comment.

3. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 247. Introduced by Preister, 5; Hilgert, 7; Thompson, 14; Suttle, 10; Chambers, 11; Beutler, 28; Price, 26.

PURPOSE: The purpose of this study is to identify ways to reduce childhood environmental lead poisoning in Nebraska. Lead poisoning can lead to death or coma at extremely high levels and, at somewhat lower levels, will cause adverse effects on the central nervous system and kidneys. Lead poisoning can cause decreased intelligence, reading and language development problems, and slower sensory-motor and delayed early cognitive development. At higher levels it can cause adverse effects on the central nervous system or lead to death. In addition, elevated lead levels have been linked to violent tendencies and disruptive behavior in children. It is one of the most common and yet most preventable pediatric health problems today.

In 1998 only 6% of Nebraska's children under the age of six were reported tested for elevated blood-lead levels. In the same year, one in five children tested in Douglas County had lead blood levels which are 4 times the national average. In children tested east of 45th Street in Omaha, 22% to 35% showed abnormally high lead levels. Out of 343 child-care facilities sampled in 1999-2000 in this same area, 71 had one or more samples exceeding the health-based action level.

More recently, a national study found that children exposed to lead levels now considered safe scored substantially lower on intelligence tests, averaging 11.1 points lower on the Stanford-Binet IQ test.

Although testing has increased in Omaha, testing elsewhere in the state

remains low. This lack of testing persists despite current policy which requires that every child receiving a Medicaid Health Check examination must be screened for elevated blood lead levels at least at ages 12 months and 24 months.

The study shall include, but not be limited to, an investigation into the following:

(1) A determination of the percentage of Medicaid children who are currently being tested for elevated blood-lead levels and a review of adequacy of services made available to children with elevated blood-lead levels;

(2) An analysis of the fiscal impact on the state regarding medical expenses and other expenses related to disturbed or violent behavior in children as a result of untreated lead poisoning in children;

(3) A review of other states' policies regarding testing of children for blood-lead levels and public education programs which have been successful in communicating the importance of testing; and

(4) A review of elevated blood-lead levels in the state and analysis of the possible sources of the lead, including an examination of how to reduce lead emissions in these areas.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee, Natural Resources Committee, and Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committees shall conduct public hearings to provide for public comment.

3. That the committees shall upon the conclusion of their study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 248. Introduced by Schimek, 27.

PURPOSE: To study and examine issues related to service delivery of natural gas within a municipal county.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 249. Introduced by Beutler, 28.

PURPOSE: To study the issues presented in LB 626, Ninety-seventh Legislature, First Session, 2001. LB 626 proposes new language that would require all full-time private employees performing services under a contract with the state for personal services to be paid a minimum wage of at least \$8.19 for employees who receive health care benefits, and at least \$9.01 for employees who do not receive health care benefits. The personal contracts under which employees are performing are those valued at \$75,000 or more per year between a private entity and a state agency, other than the University of Nebraska or any other agency established by the Constitution of Nebraska.

The study shall include, but not be limited to, an examination of the following:

(1) The number of contracts for personal services, by agency, and the number of employees working under those contracts that would be affected by passage of LB 626;

(2) The impact of LB 626 on the negotiation process between state agencies and private contractors;

(3) The impact of LB 626 upon private businesses contracting with the state to provide personal services, assuming that contract rates will not be increased to account for the living wage; and

(4) The potential fiscal impact of LB 626 if contract rates were to be increased to cover the increases in wage rates required to be paid by private contractors.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 250. Introduced by Jensen, 20.

PURPOSE: The purpose of this study is to examine issues raised by the introduction and passage of legislation relating to the licensure and regulation of distributors of mail-order contact lenses.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 251. Introduced by Redfield, 12.

PURPOSE: When municipalities, through the use of eminent domain, assume ownership of utilities previously owned by private entities, taxable property is removed from the tax rolls. This results in a shift of property tax burden among taxpayers and a loss of property tax revenue to other political subdivisions, such as counties, school districts, natural resources districts, and community colleges. Also, state aid formulas to counties, natural resources districts, and municipalities under Neb. Rev. Stat. sections 77-27,137, 77-27,137.02, and 77-27,139.03, respectively, are based upon property taxes levied, and state aid formulas to schools are based, in part, upon the amount of property available for taxation. Removal of large amounts of property from the tax rolls in this manner skews state aid formulas.

When political subdivisions construct utility infrastructure to compete with existing utilities, the value of the existing utility's infrastructure is diminished or destroyed. This results in similar revenue issues as with direct condemnation.

When the power of eminent domain is exercised to take ownership of and subsequently operate utilities, other taxable transactions may become exempt from sales or use tax and income generated by the utility becomes exempt from income tax.

The purpose of this study is to examine how property tax, state revenue, and state aid formulas are impacted by municipalities' use of the power of eminent domain over utilities. Also, the study shall review how property tax, state revenue, and state aid formulas are impacted by political subdivisions' construction of utility infrastructure to compete with existing utilities. Further, the study shall include recommendations, if any, to correct any negative impact, such as adjustments of state aid formulas to include property previously taxed or taxation of proprietary functions of municipalities.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

25 growth rate allowed by special action of the school boards for the
26 school fiscal year immediately preceding the school fiscal year
27 when the aid is to be distributed ; and one percent.

1 (3) Each local system's formula need will be equal to the
2 local system's transportation allowance plus the local system's
3 special receipts allowance plus the product of the local system's
4 adjusted formula students multiplied by the average formula cost
5 per student in the local system's cost grouping. The calculation
6 of total adjusted formula students for purposes of this subdivision
7 subsection shall take into account the requirements of subsection
8 (2) of section 79-1007.01.

9 Sec. 10. Section 79-1029, Revised Statutes Supplement,

 25 clerk or election commissioner shall place the question on the
 26 primary or general election ballot or call for a special election
 27 on the issue after the receipt of such board recommendation or

- 16 fiscal year thereafter, the local system shall maintain teacher
- 17 salary levels for the prior school year for each position on the
- 18 locally negotiated salary schedules of the districts in the local
- 19 system that are greater than or equal to the salary for the
- 20 position on the salary schedule for school year 2002-03. If a
- 21 school district reconfigures the salary schedule or does not use a
- 22 salary schedule to determine teacher compensation, the district
- 23 shall present evidence showing that the salary of each teacher that
 - 1 has been employed by the district for the school fiscal year prior
 - 2 to the school fiscal year for which aid is being calculated has
 - 3 maintained a salary level greater than or equal to the salary level
 - 4 the teacher would have received based on the methods for
 - 5 compensating teachers for school year 2002-03.
- 6 (3) If a local system does not qualify for teacher salary
- 7 enhancement payments for any school fiscal year, an amount equal to
- 8 the teacher salary enhancement payments for the prior school fiscal
- 9 year shall be subtracted from the aid to be disbursed to the local
- 10 system. If the department determines within three years following
- 11 the school fiscal year for which the aid was distributed that a
- 12 local system incorrectly qualified for the teacher salary
- 13 enhancement payments, the erroneous payments shall be subtracted
- 14 from the local system's state aid for the school fiscal year
- 15 following the determination.
- 16 (4) All local systems shall certify required data and
- 17 other information related to the teacher salary enhancement
- 18 payments to the department on or before the date established by the
- 19 department. The department may require data, other information, or
- 20 affidavits to carry out this section. The department may require
- 21 audits of such information on a regular basis, a random basis, or
- 22 upon notice from any source that the information provided by the
- 23 district is not accurate.
- 24 Sec. 10. Section 79-1008.02, Revised Statutes
- 25 Supplement, 2000, is amended to read:

- 26 79-1008.02. A minimum levy adjustment shall be
27 calculated and applied to any local system that has a general fund
1 common levy in the calendar year when aid is certified that is less
2 than ninety percent of the maximum levy allowed pursuant to
3 subdivision (2)(a) of section 77-3442 without a vote pursuant to
4 section 77-3444. To calculate the minimum levy adjustment, the
5 department shall subtract the local system general fund common levy
6 in the calendar year when aid is certified from ninety percent of
7 the maximum levy allowed pursuant to subdivision (2)(a) of section
8 77-3442 without a vote pursuant to section 77-3444 and multiply the
9 result by the local system's adjusted valuation divided by one
10 hundred. The minimum levy adjustment shall be added to the formula
11 resources of the local system for the determination of equalization
12 aid pursuant to section 79-1008.01. If the minimum levy adjustment
13 is greater than or equal to the allocated income tax funds
14 calculated pursuant to section 79-1005.01 plus the teacher salary
15 enhancement payments calculated under section 7 of this act, the
16 local system shall not receive allocated income tax funds or
17 teacher salary enhancement payments. If the minimum levy
18 adjustment is less than the allocated income tax funds calculated
19 pursuant to section 79-1005.01 plus the teacher salary enhancement
20 payments, the local system shall receive allocated income tax funds
21 plus teacher salary enhancement payments in the amount of the
22 difference between the sum of the allocated income tax funds
23 calculated pursuant to section 79-1005.01 plus teacher salary
24 enhancement payments and the minimum levy adjustment.".

SELECT COMMITTEE REPORTS**Enrollment and Review**

LEGISLATIVE BILL 172. Placed on Select File as amended.

E & R amendment to LB 172:

AM7129

- 1 1. Strike the original sections and all amendments
- 2 thereto and insert the following new sections:
- 3 "Section 1. Sections 1 to 9 of this act shall be known
- 4 and may be cited as the Uniform Sales and Use Tax Administration
- 5 Act.
- 6 Sec. 2. For purposes of the Uniform Sales and Use Tax
- 7 Administration Act:
- 8 (1) Agreement means the streamlined sales and use tax
- 9 agreement;
- 10 (2) Certified automated system means software certified

11 jointly by the states that are signatories to the agreement to
12 calculate the tax imposed by each jurisdiction on a transaction,
13 determine the amount of tax to remit to the appropriate state, and
14 maintain a record of the transaction;

15 (3) Certified service provider means an agent certified
16 jointly by the states that are signatories to the agreement to
17 perform all of the seller's sales tax collection functions;

18 (4) Person means an individual, a trust, an estate, a
19 fiduciary, a partnership, a limited liability company, a limited
20 liability partnership, a corporation, or any other legal entity;

21 (5) Sales tax means the tax levied under section 77-2703;

22 (6) Seller means any person making sales, leases, or
23 rentals of personal property or services;

24 (7) State means any state of the United States and the
1 District of Columbia; and

2 (8) Use tax means the tax levied under section 77-2703.

3 Sec. 3. The Legislature finds that a simplified sales
4 and use tax system will reduce and over time eliminate the burden
5 and cost for all sellers to collect this state's sales and use tax.
6 The Legislature further finds that this state should participate in
7 multistate discussions to review or amend the terms of the
8 agreement to simplify and modernize sales and use tax
9 administration in order to substantially reduce the burden of tax
10 compliance for all sellers and for all types of commerce.

11 Sec. 4. The Governor is authorized and directed to enter
12 into the agreement with one or more states to simplify and
13 modernize sales and use tax administration in order to
14 substantially reduce the burden of tax compliance for all sellers
15 and for all types of commerce. In furtherance of the agreement,
16 the Department of Revenue is authorized to act jointly with other
17 states that are signatories to the agreement to establish standards
18 for certification of a certified service provider and certified
19 automated system and establish performance standards for multistate
20 sellers. The department is further authorized to take other
21 actions reasonably required to implement the provisions set forth
22 in the Uniform Sales and Use Tax Administration Act. Other actions
23 authorized by this section include, but are not limited to, the
24 adoption and promulgation of rules and regulations and the joint
25 procurement, with other member states, of goods and services in
26 furtherance of the agreement. The Tax Commissioner or his or her
27 designee is authorized to represent Nebraska before the other
1 states that are signatories to the agreement. Any agreement under
2 this section shall be ratified by the Legislature.

3 Sec. 5. No provision of the agreement in whole or in
4 part invalidates or amends any provision of the law of Nebraska.
5 Adoption of the agreement by Nebraska does not amend or modify any
6 law of Nebraska. Any condition of the agreement that is in
7 conflict with state law, whether adopted before, at, or after
8 membership of Nebraska in the agreement, shall be implemented by

9 legislation or rule and regulation, as is appropriate.
10 Sec. 6. The Governor shall not enter into the agreement
11 unless the agreement requires each state to abide by the following
12 requirements:
13 (1) Uniform state rate. The agreement shall set
14 restrictions to achieve over time more uniform state rates through
15 the following:
16 (a) Limiting the number of state rates;
17 (b) Limiting the application of maximums on the amount of
18 state tax that is due on a transaction; and
19 (c) Limiting the application of thresholds on the
20 application of state tax;
21 (2) Uniform standards. The agreement shall establish
22 uniform standards for the following:
23 (a) Sourcing of transactions to taxing jurisdictions;
24 (b) Administration of exempt sales;
25 (c) Allowances a seller can take for bad debts; and
26 (d) Sales and use tax returns and remittances;
27 (3) Uniform definitions. The agreement shall require
1 states to develop and adopt uniform definitions of sales and use
2 tax terms. The definitions shall enable Nebraska to preserve its
3 ability to make taxability and exemption choices not inconsistent
4 with the uniform definitions;
5 (4) Central registration. The agreement shall provide an
6 electronic central registration system that allows a seller to
7 register to collect and remit sales and use taxes for all member
8 states;
9 (5) No nexus attribution. The agreement shall provide
10 that registration with the central registration system and the
11 collection of sales and use taxes in the member states will not be
12 used as a factor in determining whether the seller has
13 constitutional nexus with a state for any tax;
14 (6) Local sales and use taxes. The agreement shall
15 provide for reduction of the burdens of complying with local sales
16 and use taxes through the following:
17 (a) Restricting variances between the state and local tax
18 bases;
19 (b) Requiring states to administer all sales and use
20 taxes levied by local jurisdictions within the state so that
21 sellers collecting and remitting these taxes will not have to
22 register or file returns with, remit funds to, or be subject to
23 independent audits from local taxing jurisdictions;
24 (c) Restricting the frequency of changes in the local
25 sales and use tax rates and setting effective dates for the
26 application of local jurisdictional boundary changes to local sales
27 and use taxes; and
1 (d) Providing uniform notice of changes in local sales
2 and use tax rates and of changes in the boundaries of local taxing
3 jurisdictions;

4 (7) Monetary allowances. The agreement shall outline any
5 monetary allowances that are to be provided by the states to
6 sellers or certified service providers in exchange for collecting
7 sales and use taxes;

8 (8) State compliance. The agreement shall require each
9 state to certify compliance with the terms of the agreement prior
10 to joining and to maintain compliance, under the laws of the member
11 state, with all provisions of the agreement while a member;

12 (9) Consumer privacy. The agreement shall require each
13 state to adopt a uniform policy for certified service providers
14 that protects the privacy of consumers and maintains the
15 confidentiality of tax information; and

16 (10) Advisory councils. The agreement shall provide for
17 the appointment of an advisory council of private-sector
18 representatives and an advisory council of nonmember state
19 representatives to consult with in the administration of the
20 agreement.

21 Sec. 7. The agreement is an accord among individual
22 cooperating sovereigns in furtherance of their governmental
23 functions. The agreement provides a mechanism among the member
24 states to establish and maintain a cooperative, simplified system
25 for the application and administration of sales and use taxes under
26 the duly adopted law of each member state.

27 Sec. 8. (1) The agreement binds and inures only to the
1 benefit of Nebraska and the other member states. No person, other
2 than a member state, is an intended beneficiary of the agreement.
3 Any benefit to a person is established by the laws of Nebraska and
4 the other member states and not by the terms of the agreement.

5 (2) No person shall have any cause of action or defense
6 under the agreement or by virtue of this state's approval of the
7 agreement. No person may challenge, in any action brought under
8 any provision of law, any action or inaction by any department,
9 agency, or other instrumentality of Nebraska, or any political
10 subdivision of Nebraska, on the ground that the action or inaction
11 is inconsistent with the agreement.

12 (3) No law of Nebraska, or the application thereof, may
13 be declared invalid as to any person or circumstance on the ground
14 that the provision or application is inconsistent with the
15 agreement.

16 Sec. 9. (1) A certified service provider is the agent of
17 a seller with whom the certified service provider has contracted
18 for the collection and remittance of sales and use taxes. As the
19 seller's agent, the certified service provider is liable for sales
20 and use tax due each member state on all sales transactions it
21 processes for the seller except as set out in this section.
22 Notwithstanding the provisions of sections 77-2702.03 to 77-2713
23 and 77-27,125 to 77-27,135.01, a seller that contracts with a
24 certified service provider is not liable to the state for sales or
25 use tax due on transactions processed by the certified service

26 provider unless the seller misrepresented the type of items it
 27 sells or committed fraud. In the absence of probable cause to
 1 believe that the seller has committed fraud or made a material
 2 misrepresentation, a seller that contracts with a certified service
 3 provider is not subject to audit with regard to transactions
 4 processed by the certified service provider. A seller is subject
 5 to audit with regard to transactions not processed by the certified
 6 service provider. The member states acting jointly may perform a
 7 system check of the seller and review the seller's procedures to
 8 determine if the certified service provider's system is functioning
 9 properly and the extent to which the seller's transactions are
 10 being processed by the certified service provider.
 11 (2) A person that provides a certified automated system
 12 is responsible for the proper functioning of that system and is
 13 liable to the state for underpayments of tax attributable to errors
 14 in the functioning of the certified automated system as provided in
 15 section 77-2703. A seller that uses a certified automated system
 16 remains responsible and is liable to the state for reporting and
 17 remitting tax as provided in section 77-2703.
 18 (3) A seller that has a proprietary system for
 19 determining the amount of tax due on transactions and has signed
 20 any agreement establishing a performance standard for that system
 21 is liable for the failure of the system to meet the performance
 22 standard.
 23 Sec. 10. Section 77-2701, Revised Statutes Supplement,
 24 2000, is amended to read:
 25 77-2701. Sections 77-2701 to 77-27,135.01 and sections 1
 26 to 9 of this act shall be known and may be cited as the Nebraska
 27 Revenue Act of 1967.
 1 Sec. 11. Original section 77-2701, Revised Statutes
 2 Supplement, 2000, is repealed."

8 86-1907. (1) Nothing in the Telephone Consumer Slamming
9 Prevention Act shall preclude a subscriber from electing to resolve
10 an unauthorized change in service directly with the unauthorized
11 telecommunications company. If the subscriber is unsatisfied with
12 the resolution from the unauthorized company, the subscriber may
13 file a complaint with the commission. The complaint may be made by
14 letter, fax, online notification, or telephone call to the
15 commission. The subscriber may be required to provide a copy of

21 the federal act, shall adopt and promulgate rules and regulations

26 paid charges to an allegedly unauthorized telecommunications
27 company. Upon receiving notification from the subscriber or a
1 company that a subscriber has been subjected to an unauthorized
2 change and that the subscriber has paid charges to an allegedly
3 unauthorized company, the properly authorized company shall, within
4 thirty days, request from the allegedly unauthorized company proof
5 of verification of the subscriber's authorization to change
6 companies. Within ten days after receiving such request, the
7 allegedly unauthorized company shall forward to the authorized
8 company either:
9 (a) Proof of verification of the subscriber's
10 authorization to change companies; or
11 (b) The following:
12 (i) An amount equal to all charges paid by the subscriber

17 (iii) Copies of any telephone bills issued from the
18 unauthorized company to the subscriber.
19 (2) If an authorized telecommunications company incurs
20 any billing and collection expenses in collecting charges from the
21 unauthorized company, the unauthorized company shall reimburse the
22 authorized company for reasonable expenses.
23 (3) When a subscriber notifies the unauthorized company,
24 rather than the authorized company, of an unauthorized change, the
25 unauthorized company shall immediately notify the authorized
26 company.
27 (4) Upon receipt from the unauthorized company of the

1 amount described in subdivision (1)(b)(i) of this section, the

5 change. If the authorized company has not received from the
6 unauthorized company an amount equal to charges paid by the
7 subscriber to the unauthorized company, the authorized company is
8 not required to provide any refund or credit. The authorized
9 company shall, within sixty days after it receives notification of
10 the unauthorized change, inform the subscriber if it has failed to
11 collect any charges from the unauthorized company and inform the
12 subscriber of his or her right to pursue a claim against the
13 unauthorized company for a refund of all charges paid to the
14 unauthorized company.

15 (5) When possible, the properly authorized company shall
16 reinstate the subscriber in any premium program in which that
17 subscriber was enrolled prior to the unauthorized change if that
18 subscriber's participation in the premium program was terminated
19 because of the unauthorized change. If the subscriber has paid
20 charges to the unauthorized company, the properly authorized
21 company shall also provide or restore to the subscriber any
22 premiums to which the subscriber would have been entitled had the
23 unauthorized change not occurred. The authorized company shall
24 comply with the requirements of this subsection regardless of
25 whether it is able to recover from the unauthorized company any
26 charges that were paid by the subscriber.

27 (6) The Public Service Commission may from time to time
1 review and adjust the reimbursement procedures in a manner
2 consistent with federal law.

3 Sec. 7. Section 86-1908, Reissue Revised Statutes of

LEGISLATIVE BILL 593. Placed on Select File as amended.

E & R amendment to LB 593:

AM7131

1 1. Strike the original sections and all amendments

2 thereto and insert the following new sections:

3 "Section 1. The working men and women in Nebraska law

4 enforcement risk their lives everyday. The people of Nebraska

5 greatly appreciate the hard work and dedication of law enforcement

6 officers in protecting the public. The good name of these officers

7 should not be tarnished by the actions of those few who commit

8 discriminatory practices in defiance of the Nebraska Law

9 Enforcement Non-Discrimination Resolution adopted on October 10,
10 2000, by various Nebraska law enforcement entities.

11 Racial profiling is a practice that presents a great
12 danger to the fundamental principles of a democratic society. It
13 is abhorrent and cannot be tolerated. Motorists who have been
14 stopped by the police for no reason other than the color of their
15 skin or their apparent nationality or ethnicity are the victims of
16 discriminatory practices.

17 Sec. 2. (1) No member of the Nebraska State Patrol or a
18 county sheriff's office, officer of a city or village police
19 department, or member of any other law enforcement agency in this
20 state shall engage in racial profiling. The disparate treatment of
21 an individual whose motor vehicle has been stopped by a law
22 enforcement officer is inconsistent with this policy.

23 (2) Racial profiling shall not be used to justify the
24 detention of an individual or to conduct a motor vehicle stop.

1 Sec. 3. For purposes of sections 1 to 5 of this act:

2 (1) Disparate treatment means differential treatment of
3 persons on the basis of race, color, or national origin;

4 (2) Motor vehicle stop means any stop of a motor vehicle;
5 and

6 (3) Racial profiling means detaining an individual or
7 conducting a motor vehicle stop based upon disparate treatment of
8 an individual.

9 Sec. 4. (1) On or before January 1, 2002, the Nebraska
10 State Patrol, the county sheriffs, all city and village police
11 departments, and any other law enforcement agency in this state
12 shall adopt a written policy that prohibits the detention of any
13 person or a motor vehicle stop when such action is motivated by
14 racial profiling and the action would constitute a violation of the
15 civil rights of the person.

16 (2) With respect to a motor vehicle stop, on and after
17 January 1, 2002, the Nebraska State Patrol, the county sheriffs,
18 all city and village police departments, and any other law
19 enforcement agency in this state shall record and retain the
20 following information using the form developed and promulgated
21 pursuant to section 5 of this act:

22 (a) The number of motor vehicle stops;

23 (b) The characteristics of race or ethnicity of the
24 person stopped. The identification of such characteristics shall
25 be based on the observation and perception of the law enforcement
26 officer responsible for reporting the motor vehicle stop and the
27 information shall not be required to be provided by the person
1 stopped;

2 (c) If the stop is for a law violation, the nature of the
3 alleged law violation that resulted in the motor vehicle stop;

4 (d) Whether a warning or citation was issued, an arrest
5 made, or a search conducted as a result of the motor vehicle stop.
6 Search does not include a search incident to arrest or an inventory
7 search; and

8 (e) Any additional information that the Nebraska State
9 Patrol, the county sheriffs, all city and village police
10 departments, or any other law enforcement agency in this state, as
11 the case may be, deems appropriate.

12 (3) The Nebraska Commission on Law Enforcement and
13 Criminal Justice may develop a uniform system for receiving
14 allegations of racial profiling. The Nebraska State Patrol, the

15 county sheriffs, all city and village police departments, and any
16 other law enforcement agency in this state shall provide to the
17 commission (a) a copy of each allegation of racial profiling
18 received and (b) written notification of the review and disposition
19 of such allegation. No information revealing the identity of the
20 law enforcement officer involved in the stop shall be used,
21 transmitted, or disclosed in violation of any collective bargaining
22 agreement provision or personnel rule under which such law
23 enforcement officer is employed. No information revealing the
24 identity of the complainant shall be used, transmitted, or
25 disclosed in the form alleging racial profiling.

26 (4) Any law enforcement officer who in good faith records
27 information on a motor vehicle stop pursuant to this section shall
1 not be held civilly liable for the act of recording such

2 information unless the law enforcement officer's conduct was
3 unreasonable or reckless or in some way contrary to law.

4 (5) On or before October 1, 2002, and annually thereafter
5 until January 1, 2004, the Nebraska State Patrol, the county
6 sheriffs, all city and village police departments, and all other
7 law enforcement agencies in this state shall provide to the
8 commission, in such form as the commission prescribes, a summary
9 report of the information recorded pursuant to subsection (2) of
10 this section.

11 (6) On and after January 1, 2002, and until January 1,
12 2004, the commission may, within the limits of its existing
13 appropriations, provide for a review of the prevalence and
14 disposition of motor vehicle stops based on racial profiling and
15 allegations reported pursuant to this section. The results of such
16 review shall be reported to the Governor and the Legislature on or
17 before April 1, 2004.

18 Sec. 5. On or before January 1, 2002, the Nebraska
19 Commission on Law Enforcement and Criminal Justice, the
20 Superintendent of Law Enforcement and Public Safety, the Attorney
21 General, and the State Court Administrator may adopt and
22 promulgate: (1) A form, in printed or electronic format, to be
23 used by a law enforcement officer when making a motor vehicle stop
24 to record personal identifying information about the operator of
25 such motor vehicle, the location of the stop, the reason for the
26 stop, and any other information that is required to be recorded
27 pursuant to subsection (2) of section 4 of this act and (2) a form,
1 in printed or electronic format, to be used to report an allegation
2 of racial profiling by a law enforcement officer.".

RESOLUTION

LEGISLATIVE RESOLUTION 259. Introduced by Revenue Committee: Wickersham, 49, Chairperson; Coordsen, 32; Dierks, 40; Janssen, 15; Raikes, 25; Redfield, 12.

PURPOSE: Since December 1999, the Legislative Fiscal Office has used a computable general equilibrium model (TRAIN) to investigate economic impacts of various tax incentives proposed or in existence in Nebraska. The TRAIN model is a comprehensive general economic model that is able to examine how tax changes and incentives affect the Nebraska economy, personal income, and state revenue.

However, TRAIN is, in a sense, a static model that measures the changes in the economy from equilibrium at a point before introduction of the shock

to a point of new equilibrium at some point in the future. The model does not allocate impacts by year -- the impacts are from one equilibrium point to the new equilibrium point, which occurs over a number of years.

A more advanced model, a dynamic TRAIN model, will be able to measure economic impacts by year. Because the dynamic model utilizes the economic growth in the model, it will provide more realistic outcomes on the impacts of tax incentive and will present the path of Nebraska economy through time.

During the interim study in 2000, the Legislative Fiscal Office investigated many dynamic CGE models published in order to determine the most efficient model framework for examining Nebraska tax incentives. After careful literature review, a National Dynamic CGE model, called the BFSW model (constructed by Ballard, Fullerton, Shoven, and Whalley), was selected as the basic framework for constructing a dynamic Nebraska CGE model. It was originally constructed in 1987 and later modified and used by many researchers for academic and policy research.

An interim study should be conducted this year to:

- (1) Construct a basic framework based on the BFSW model;
- (2) Specify Nebraska tax systems based on TRAIN model;
- (3) Construct a Nebraska database based on IMPLAN; and
- (4) Document the new Dynamic TRAIN model.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

- 2 "Sec. 27. Section 23-1118, Revised Statutes Supplement,
- 3 2000, is amended to read:
- 4 23-1118. (1)(a) Unless the county has adopted a
- 5 retirement system pursuant to section 23-2329, the county board of
- 6 any county having a population of one hundred fifty thousand

7 inhabitants or more may, in its discretion and with the approval of
8 the voters, provide retirement benefits for present and future
9 employees of the county. The cost of such retirement benefits
10 shall be funded in accordance with sound actuarial principles with
11 the necessary cost being treated in the county budget in the same
12 way as any other operating expense.

13 (b) Except as provided in subdivision (c) of this
14 subsection, each employee shall be required to contribute, or have
15 contributed on his or her behalf, an amount at least equal to the
16 county's contribution to the cost of any such retirement program as
17 to service performed after the adoption of such retirement program,
18 but the cost of any benefits based on prior service shall be borne
19 solely by the county.

20 (c) In a county or municipal county having a population
21 of two hundred thousand or more inhabitants but not more than three
22 hundred thousand inhabitants, the county or municipal county shall
23 establish the employee and employer contribution rates to the
1 retirement program for each year after July 15, 1992. The county

6 contribution. The combined contributions of the county or
7 municipal county and its employees to the cost of any such
8 retirement program shall not exceed thirteen percent of the
9 employees' salaries.

10 (2) Before the county board or council provides
11 retirement benefits for the employees of the county or municipal
12 county, such question shall be submitted at a regular general or
13 primary election held within the county or municipal county, and in
14 which election all persons eligible to vote for the ~~county~~
15 officials of the county or municipal county shall be entitled to
16 vote on such question, which shall be submitted in the following
17 language: Shall the county board or council provide retirement
18 benefits for present and future employees of the county or
19 municipal county? If a majority of the votes cast upon such
20 question are in favor of such question, then the county board or
21 council shall be empowered to provide retirement benefits for
22 present and future employees as provided in this section. If such
23 retirement benefits for present and future county and municipal
24 county employees are approved by the voters and authorized by the
25 county board or council, then the funds of such retirement system,
26 in excess of the amount required for current operations as
27 determined by the county board or council, may be invested and
1 reinvested in the class of securities and investments described in
2 section 30-3209.

3 (3) As used in this section, employees shall mean all
4 persons or officers devoting more than twenty hours per week to
5 employment by the county or municipal county, all elected officers

6 of the county or municipal county, and such other persons or

10 contributions required by this section for all compensation paid on
11 or after January 1, 1985, and the contributions so picked up shall
12 be treated as employer contributions in determining federal tax
13 treatment under the Internal Revenue Code, except that the county
14 or municipal county shall continue to withhold federal income taxes
15 based upon these contributions until the Internal Revenue Service
16 or the federal courts rule that, pursuant to section 414(h) of the
17 Internal Revenue Code, these contributions shall not be included as
18 gross income of the member until such time as they are distributed
19 or made available. The county or municipal county shall pay these
20 member contributions from the same source of funds which is used in
21 paying earnings to the member. The county or municipal county
22 shall pick up these contributions by a salary deduction either
23 through a reduction in the cash salary of the member or a
24 combination of a reduction in salary and offset against a future
25 salary increase. Member contributions picked up shall be treated
26 in the same manner and to the same extent as member contributions

- 1 If a plan contains no current active participants, the
 2 chairperson may file in place of such report a statement with the
 3 Public Employees Retirement Board indicating the number of retirees
 4 still drawing benefits, and the sources and amount of funding for

MESSAGES FROM THE GOVERNOR

May 25, 2001

Patrick J. O'Donnell
Clerk of the Legislature
State Capitol, Room 2018
Lincoln, NE 68509

Dear Mr. O'Donnell:

Engrossed Legislative Bills 23e, 23Ae, 24Ae, 38, 83, 83A, 92e, 92Ae, 152e, 152A, 154, 154A, 163, 163A, 169, 225, 225Ae, 238, 242, 243e, 244, 244A, 278, 278A, 303e, 303Ae, 313e, 313Ae, 334, 334A, 335, 335A, 368, 432, 432A, 433, 433A, 468, 468A, 516, 561A, 620e, 659, 659A, 677, 677A, 772, 827, 827A were received in my office on May 21, 2001.

These bills were signed by me on May 25, 2001, and delivered to the Secretary of State.

Sincerely,
(Signed) Mike Johanns

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Mr. President, Mr. Speaker, and Members of the Legislature:

I am returning LB 24 without my signature and with my objections. LB 24A has been signed with the intent that the funding be used to support the legislative study authorized by Legislative Resolution 74.

LB 24 would create a task force to study the creation of a new Immunization Registry within the Department of Health and Human Services. The estimated annual cost of a registry, according to the "All Kids Count" study, is \$3.91 per child. In Nebraska, this would amount to an approximate \$600,000 annual cost for maintaining the registry. This cost does not include the estimated \$1 million to \$2 million dollar expense for the initial development and implementation of the registry. Promoting appropriate immunizations for children is critically important; however, I am concerned that creation of a state database to track immunizations may not be the most effective use of limited state financial resources.

Another factor in my veto decision is that LR 74 has been introduced to study the same issues presented by LB 24. The legislative study will involve

both public and private interests to study the registry issue. A determination on whether the benefits of a registry outweigh other beneficial annual expenditures per year on Nebraska children should be made prior to studying how to create and establish such a state registry.

For these reasons, I urge you to sustain my veto of LB 24.

Sincerely,
(Signed) Mike Johanns
Governor

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Mr. President, Mr. Speaker, and Members of the Legislature:

I have returned LB 238 with my signature. This bill will provide for state licensure of emergency medical service instructors. I am, however, returning LB 238A without my signature and with my objections.

This veto is exercised for two reasons. First, the rules and regulations that will be required to be promulgated by LB 238 are already scheduled for amendment within the next year. Second, funding for this licensure program can be redirected from within the current Department of Health and Human Services Regulation and Licensure budget appropriation.

For these reasons, I urge you to sustain the veto of LB 238A.

Sincerely,
(Signed) Mike Johanns
Governor

May 25, 2001

Mr. President, Mr. Speaker,
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Mr. President, Mr. Speaker, and Members of the Legislature:

I am returning LB 451 and LB 451A without my signature and with my objections. LB 451 vests the Nebraska Probation System with responsibility for juvenile intake services and creates the position of "juvenile intake probation officer." Under the bill, juvenile intake probation officers would be developed as a specialized class of probation officers, trained in utilizing a uniform juvenile detention screening instrument.

LB 451 would also amend Neb. Rev. Stat. § 43-250(3) to require law

enforcement officers who take a juvenile into custody to deliver the juvenile to a "juvenile intake probation officer" instead of to the juvenile court. The current statute allows law enforcement officers the option of delivering a juvenile to either the court or to a probation officer for determining whether the juvenile will be released from custody or placed in detention pending further court disposition.

In order to perform the functions set forth in the legislation, LB 451A appropriates \$335,417 from General Funds for FY 2001-02 and \$344,755 from General Funds for FY 2002-03 to provide seven additional positions within the court to act in the capacity of juvenile probation intake officers. These seven officers, coupled with the six probation officers currently performing intake duties, would total only 13 probation officers who would be eligible to conduct the juvenile intake assessment for the entire State of Nebraska.

The goal of this legislation is laudable in that it seeks to ensure statewide consistency in juvenile detention decisions. My concern with the legislation is not this goal but, rather, the fact that it is moving the State towards an expansion of the number of state employees needed to perform existing juvenile intake functions. To accomplish the goal of consistency in the broadest manner across our State, I propose that all juvenile probation officers and juvenile courts receive the required juvenile intake service training to appropriately implement a uniform intake screening instrument. These procedural changes can be accomplished without the need for this legislation. Expanding such training to all probation officers and juvenile judges ensures that juveniles will be promptly and uniformly assessed upon their intake into the juvenile justice system.

My decision to veto this legislation also takes into consideration that the approved mainline budget for the Office of Probation Administration includes an additional \$640,000 of General Funds to provide salary funding for existing probation employees and to acquire additional probation staff.

For these reasons, I urge you to sustain my vetoes of LB 451 and LB 451A.

Sincerely,
(Signed) Mike Johanns
Governor

Mr. President, Mr. Speakers,
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Mr. President, Mr. Speaker, and Members of the Legislature:

I am returning LB 671 and LB 671A without my signature and with my objections.

LB 671 would establish a \$500 license fee for out-of-state persons

shipping alcoholic products to consumers in Nebraska. LB 671A appropriates funds for the Nebraska Liquor Control Commission to carry out the provisions of the bill.

Since final passage of this bill by the Legislature, I have been contacted directly by many constituents with conflicting views on the need for the legislation. I have also been advised that, later this year, the General Affairs Committee will review the issues presented by the bill as it considers the study authorized by Legislative Resolution 84. That study will examine specific matters related to the importation of alcoholic liquor into Nebraska for personal use. Therefore, I believe that any implementation of the LB 671 provisions at this time would be premature.

For these reasons, I urge you to sustain the vetoes of LB 671 and LB 671A.

Sincerely,

Mr. President, Mr. Speakers,
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Mr. President, Mr. Speaker, and Members of the Legislature:

I am returning LB 772 with my signature and LB 772A with my signature and with certain line-item reductions.

Since passage of the bill, it has come to my attention that costs of certain services can be handled by existing legislative staff. Therefore, I have made line item reductions of \$12,594 for FY 2001-2002, and \$25,188 for FY 2002-2003, which represents the salary funding for the clerical staff position. This action will retain the executive director and board member travel costs for the non-governmental board members. The Legislative Council will use its existing staff to provide administrative support for the executive director and the board.

I urge you to sustain these reductions in LB 772A.

Sincerely,
(Signed) Mike Johanns

25 department, unless the department approves more restrictive levels
26 of security as prescribed by the private prison contractor.

27 Private prison contractors housing federal inmates or inmates of
1 another state shall be bound by such security level

24 (b) Show, to the satisfaction of the department, that
25 adequate food, housing, and medical care will be available for

9 and adequate to reimburse this state or a political subdivision of
10 this state, for expenses arising from any incident which occurs at
11 such prison or which requires intervention by this state or a
12 political subdivision of this state. Such insurance, in addition,
13 shall be in an amount sufficient to indemnify this state and its

16 expenses arising from the operation of the facility, and such
17 facility shall in any event and regardless of the amount of

8 or the cost of the search, whichever is less. The fees shall be
9 remitted to the State Treasurer for credit to the General Fund.
10 The private prison contractor may reimburse employees for the cost

13 obtain any felony convictions of the person involved. The record
14 required by this subdivision shall include the name of the person,
15 whether or not the person has been convicted of any felony offense,
16 a list of any felony convictions, and the dates of such
17 convictions. The search records of each such person shall be
18 maintained by the private prison contractor for as long as he or
19 she works for the private prison contractor. The records shall be
20 subject to inspection by the Department of Correctional Services.

21 (2) All private prison contractors shall attain
22 accreditation by the American Correctional Association within two
23 years of commencing operation of a private prison facility and
24 thereafter shall maintain such accreditation.

25 (3) The department shall monitor the performance and the
26 continued compliance of the private prison contractor with this
27 section. If at any time after commencing operations, a private
1 prison contractor subject to subsection (1) of this section fails

3 to cease operations. If a private prison contractor fails to
4 attain or maintain the accreditation required by subsection (2) of
5 this section, the director shall order the facility to cease
6 operations. This order may be enforced by injunction.

7 (4) The department may charge the private prison
8 contractor a reasonable fee for monitoring compliance with the

9 determined at the valuation date preceding his or her termination
10 of employment. Such police officer, if vested, shall also receive
11 a deferred pension benefit in an amount purchased or provided by

6 vested upon attainment of age sixty while employed by the city as a
7 police officer.

8 The deferred pension benefit shall be payable on the
9 first of the month immediately following the police officer's
10 sixtieth birthday. At the option of the terminating police
11 officer, such pension benefit may be paid as of the first of the
12 month after such police officer attains the age of fifty-five.
13 Such election may be made by the police officer any time prior to
14 the payment of the pension benefits. The deferred pension benefit
15 shall be paid in the form of the benefit options specified in

24 vested retirement value in the form of a single lump-sum payment.
25 For a police officer whose termination of employment is prior to

 27 has adopted a lump-sum distribution option for terminating police
 1 officers in the funding medium established for the retirement

 12 the expense charges incurred by the city in connection with
 13 administering the police officers retirement system and the

LEGISLATIVE RESOLUTION 273. Introduced by Health and Human Services Committee: Jensen, 20, Chairperson; Byars, 30; Cunningham, 18; Erdman, 47; Maxwell, 9; Price, 26; Suttle, 10.

PURPOSE: LB 640 was introduced on January 16, 2001, at the request of the Governor. The bill was heard by the Health and Human Services Committee of the Legislature on February 8, 2001, and was advanced to General File with committee amendments (AM1022). LB 640 provides additional state General Funds to counties for juvenile services through a newly created County Juvenile Services Aid Program. Grants are also made available in the bill to counties for the development of comprehensive juvenile services plans.

The purpose of this study is to examine three specific issues raised by the introduction of LB 640 (2001): (1) The development of an "equitable formula" for the distribution of aid to counties under the County Juvenile Services Aid Program; (2) the coordination and integration of grants awarded by the Nebraska Commission on Law Enforcement and Criminal Justice and aid distributed to counties under the County Juvenile Services Aid Program; and (3) the distribution and use of aid provided under the bill as it relates to the statewide organization of juvenile justice services and the implementation of a comprehensive plan for the delivery of such services.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

LEGISLATIVE RESOLUTION 274. Introduced by Urban Affairs Committee: Hartnett, 45, Chairperson; Connealy, 16; Erdman, 47; Janssen, 15; Preister, 5; Quandahl, 31; Redfield, 12.

PURPOSE: With the filing of the consultant's report on our existing system of municipal natural gas regulation and the introduction and consideration of legislation based on that report to reform and restructure our current system (proposed amendments to LB 806 and LB 807), the issues surrounding the future shape of natural gas regulation in Nebraska have been identified and placed before the committee for further discussion, study, and development.

This study would involve a review of those issues currently before the Urban Affairs Committee and the development of a program for effective natural gas regulation in Nebraska, based upon the consultant's report and the amendments to LB 806 proposed at committee hearings on February 27 and March 6.

The goal will be to draft new legislation for introduction in the 2002 legislative session providing for a comprehensive natural gas regulatory program. In pursuing that goal, the committee will engage representatives from all interested groups and parties involved in providing natural gas to consumers in Nebraska and the consumers themselves in discussions aimed at narrowing differences and finding ways of arriving at consensus on the final solution.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 275. Introduced by Business and Labor Committee: Connealy, 16, Chairperson; Dierks, 40; Hartnett, 45; Preister, 5; Schimek, 27; Vrtiska, 1.

PURPOSE: To study issues involving the passage of LB 193, Ninety-seventh Legislature, First Session, 2001, which established the Nebraska Workforce Investment Act. The study will examine whether successful implementation is taking place and whether legislative changes are necessary to assist with this workforce development transition.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SEVENTH LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Business and Labor Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

1 1. Strike sections 5 and 6 and insert the following new
 2 sections:
 3 "Sec. 5. (1) With approval from the Department of
 4 Correctional Services a private prison contractor may contract with
 5 the federal government or another state to provide for housing,
 6 care, and control of minimum-security, medium-security, or
 7 community level inmates, as provided by subsection (9) of this
 8 section if such inmates are in the custody of the United States or
 9 another state, do not have histories of escape from medium-security
 10 or maximum-security adult correctional facilities, do not have
 11 histories of rioting, and are sentenced to terms of incarceration
 12 for conviction of a felony other than a felony that would be a

13 capital offense if committed in this state. Such private prison
14 contractor may perform other functions related to such
15 responsibilities.

16 (2) Approval from the department allowing a private
17 prison contractor to contract with the federal government or
18 another state shall be based on the viability of the ongoing
19 operation of the private prison facilities.

20 (3) Any offense which would be a crime if committed
21 within a correctional facility operated by this state shall be a
22 crime if committed in a facility owned or operated by a private
23 prison contractor and shall be reported to law enforcement and the
1 Director of Correctional Services.

2 (4) A private prison contractor shall not employ any
3 personnel convicted of a felony if the person has been incarcerated
4 in the private prison facility for which an application for
5 employment is being considered. The department is authorized to
6 provide training to personnel of the private prison contractor
7 pursuant to contract. The department shall charge a reasonable fee
8 for the training, not to exceed the cost of such training. If an

10 other serious disturbance, personnel from the facility shall
11 immediately implement the department's emergency response policy or
12 similar procedure authorized by the department for the private
13 prison.

14 (5) A private prison contractor housing federal inmates
15 or inmates of another state shall not accept:

16 (a) Any inmate who would be incarcerated in the facility
17 for conviction of a misdemeanor, unless such incarceration in the
18 facility is consistent with American Correctional Association
19 requirements relating to the incarceration of inmates convicted of
20 more serious offenses; or

21 (b) Any maximum-security level inmate.

22 (6) If an inmate to be released or discharged from
23 incarceration is released or discharged by any court order, is to
24 be placed on probation or is paroled, or if the federal government
25 or sending state requests transfer or the return of the inmate, the
26 private prison contractor shall immediately transfer or return the
27 inmate to the sending state which has legal authority over the
1 sentence or, in the case of federal inmates, to the closest federal
2 prison or to the federal authority of the state in which federal
3 custody over the inmate originated.

4 (7) A private prison contractor housing federal inmates
5 from jurisdictions other than Nebraska or inmates sentenced
6 pursuant to the legal authority of another state, shall not allow
7 any such inmate to leave the premises of the facility, except to
8 comply with an order to appear in a court of competent
9 jurisdiction, to receive medical care not available at the
10 facility, to work as provided in subsection (8) of this section, or
11 to return or be transferred to another state as provided by

12 subsection (6) of this section.

13 (8) A private prison contractor may allow
14 minimum-security-B level and community custody level inmates as
15 defined by the department to be used in public works projects if
16 all of the following conditions are met:

17 (a) The public works project must be in and for the
18 county in which the private prison is located or a county adjacent
19 to such county or in and for a municipality in either of such
20 counties;

21 (b) The private prison contractor has developed security
22 procedures which will ensure the safety of the public and the
23 department has approved such procedures;

24 (c) The public works project has been authorized by the
25 county or municipal authorities of the county and municipality in
26 which the public works project is located;

27 (d) The private prison contractor has procured and has in
1 force and effect a policy of liability insurance which will provide
2 coverage in an amount determined by the department for any loss
3 resulting from the acts or omissions of inmates participating in
4 the public works project or employees of the private prison
5 contractor and for any injuries occurring to the inmates or

10 (9) A private prison contractor housing federal inmates
11 or inmates of another state shall be responsible for the
12 reimbursement of all reasonable costs and expenses incurred by this

15 inmate of another state while incarcerated in the private prison,
16 including court costs, sheriff's mileage fees, witness fees,
17 district attorney expenses, expenses of the office of the Attorney
18 General, public defender fees and costs, judicial expenses, court
19 reporter expenses and any other costs, fees, or expenses associated
20 with the proceedings or actions.

21 (10) For purposes of this section, unless federal custody
22 status is specified, security level restrictions shall refer to the
23 security levels applicable to inmates in institutions within the
24 Department of Correctional Services, as determined by policy of the
25 department, unless the department approves more restrictive levels
26 of security as prescribed by the private prison contractor.
27 Private prison contractors housing federal inmates or inmates of
1 another state shall be bound by such security level
2 classifications.

3 (11) A private prison contractor shall not house inmates
4 from this state with federal inmates or inmates from another state
5 unless segregated or otherwise housed in such a manner as to
6 satisfy the Director of Correctional Services.

7 (12) The State of Nebraska shall not assume jurisdiction
8 or custody of any federal inmate or inmate from another state
9 housed in a facility owned or operated by a private prison
10 contractor. Such inmates from another state shall at all times be
11 subject to the jurisdiction of that state, and federal inmates
12 shall at all times be subject to federal jurisdiction. The State
13 of Nebraska shall not be liable for loss resulting from the acts of

17 commencing operations and thereafter as required by the Department
18 of Correctional Services, shall:

19 (a) Obtain from the department approval of the internal
20 and perimeter security of the private prison facility. Such
21 approval shall be given only if the Director of Correctional
22 Services determines that the security is adequate to protect the
23 public;

24 (b) Show, to the satisfaction of the department, that
25 adequate food, housing, and medical care will be available for
26 inmates, that the facility will have the necessary qualified
27 personnel to operate the facility, that the financial condition of
1 the private prison contractor is such that the facility can be
2 operated adequately, and that the facility has the ability to
3 comply with applicable court orders and American Correctional
4 Association standards;

5 (c) Furnish to the department satisfactory proof that the
6 private prison contractor has obtained insurance or is
7 self-insured, in such a manner and in such an amount as the
8 director after consulting with the Risk Manager may deem necessary
9 and adequate to reimburse this state or a political subdivision of
10 this state, for expenses arising from any incident which occurs at
11 such prison or which requires intervention by this state or a
12 political subdivision of this state. Such insurance, in addition,
13 shall be in an amount sufficient to indemnify this state and its
14 officers and employees, for any liability or other loss, including
15 property damage, judgments, costs, attorney's fees, or other
16 expenses arising from the operation of the facility, and such
17 facility shall in any event and regardless of the amount of
18 insurance available indemnify and hold harmless this state and its
19 officers and employees, for any and all acts of prison inmates and
20 all officers, employees, and stockholders of such private prison
21 contractor for any liability arising out of acts of inmates,
22 officers, employees, and stockholders of such private prison
23 contractor in relation to the operation of the facility. The
24 insurance required by this subdivision shall not provide coverage
25 for more than one facility. If the private prison contractor owns
26 or operates more than one facility, separate insurance coverage
27 shall be obtained or provided for each facility; and

1 (d) A felony record search of fingerprints of the

2 employee or prospective employee of the private prison contractor
3 shall be required. The search shall be based on fingerprints and
4 shall be conducted either by the Federal Bureau of Investigation or
5 the Nebraska State Patrol. If the search is conducted by the
6 Nebraska State Patrol, the patrol shall require that such employee
7 or prospective person pays a search fee not to exceed fifty dollars
8 or the cost of the search, whichever is less. The fees shall be
9 remitted to the State Treasurer for credit to the General Fund.
10 The private prison contractor may reimburse employees for the cost
11 of the search. The Nebraska State Patrol may contact the Federal
12 Bureau of Investigation in regard to the information requested, to
13 obtain any felony convictions of the person involved. The record
14 required by this subdivision shall include the name of the person,
15 whether or not the person has been convicted of any felony offense,
16 a list of any felony convictions, and the dates of such
17 convictions. The search records of each such person shall be
18 maintained by the private prison contractor for as long as he or
19 she works for the private prison contractor. The records shall be
20 subject to inspection by the Department of Correctional Services.
21 (2) All private prison contractors shall attain
22 accreditation by the American Correctional Association within two
23 years of commencing operation of a private prison facility and
24 thereafter shall maintain such accreditation.
25 (3) The department shall monitor the performance and the
26 continued compliance of the private prison contractor with this
27 section. If at any time after commencing operations, a private
1 prison contractor subject to subsection (1) of this section fails
2 to comply with such subsection, the director may order the facility
3 to cease operations. If a private prison contractor fails to
4 attain or maintain the accreditation required by subsection (2) of
5 this section, the director shall order the facility to cease
6 operations. This order may be enforced by injunction.
7 (4) The department may charge the private prison
8 contractor a reasonable fee for monitoring compliance with the
9 provisions of subsection (1) of this section. The fee shall not
10 exceed the cost incurred in performing the monitoring.
11 (5) All fees collected by the department pursuant to this
12 section shall be remitted to the State Treasurer for credit to the
13 Department of Correctional Services Facility Cash Fund."

MESSAGES FROM THE GOVERNOR

May 31, 2001

Mr. President, Mr. Speaker, and
Members of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Mr. President, Mr. Speaker, and Members of the Legislature:

I am returning LB 215 without my signature and with my objections.

My objections to this legislation are focused solely on those provisions that make it unlawful for licensed real estate professionals to discriminate against individuals based upon their "sexual orientation." My position on the issue of giving separate legal recognition to individuals on the basis of their personal sexual preference is longstanding and clear. I oppose such efforts.

LB 215 goes beyond mere tolerance and clearly creates a legal classification based upon sexual choices that our citizens make in their personal lives. There is no distinction between the "sexual orientation" provisions set forth in this bill and ones that would be suggested in any other state licensure laws. In my view, therefore, the legislation should be viewed as beginning a precedent that our State would embark upon in many other areas.

For these reasons, I urge you to sustain my veto of LB 215.

Sincerely,
(Signed) Mike Johanns
Governor
